FOREWORD

Agency for Statistics of Bosnia and Herzegovina in accordance with the Plan of activities for 2022, publishes the Bulletin of the annual structural business statistics (SBS) - 2020 in which the data relate to market enterprises and entrepreneurs, ie. include economic sections B, C, D, E, F, G, H, I, J, L, M, N, P, Q, R and S.

Bulletin contains main structural variables and indicators that are made based on the data "Annual structural business statistics survey for enterprises" with 20 and more persons employed and the data for other enterprises which are taken from administrative and other sources of entities and Brcko District. Survey is jointly conducted by statistical institutions of Bosnia and Herzegovina (Agency for Statistics of Bosnia and Herzegovina, Institute for Statistics of Federation of BiH and Institute for Statistics of Republika Srpska). The variables for entrepreneurs are estimated. Presented results are in full compliance with applicable EU standards in this field of statistics (EU Regulation 295/2008), and in accordance with actual EU Classification of economic activities NACE Rev 2.

Bulletin consists of two parts. The first part contains basic methodological explanations with definitions of variables and indicators in order to allow proper and easier use of the presented data. The second part contains tables with data and graphics.

Structural business statistics produce variables and indicators for the reference year in nominal amount, and show changes in one year compared to another. Tables 1.0 - 6.0 show the data in 2020 year with graphical representations and tables 7.0 - 9.1 show the comparable data for three years.

It must be pointed out that the statistical data presented in this bulletin are not comparable with the data on the structure and business collected and/or processed according to methodologies that have a different access and/or using different concepts and definitions.

We use this opportunity to thank the Institute for Statistics of Federation of BiH and Institute for Statistics of Republika Srpska for good cooperation as for the joint efforts during the conducting of the structural business survey, controls carried out, data editing, analysis of results, etc.

Vesna Čužić, Director
Sarajevo, June 2022

INTRODUCTION

Structural business statistics are aimed at collecting, processing and publishing statistical data on the structure, activity, competitiveness and operating characteristics of enterprises and their business results at different levels of grouping by activity.

Structural business statistics represent a general framework for collecting data on all active market units (enterprises and entrepreneurs). Based on these data, indicators are produced for the reference year and show changes in relation to the previous year. Most of the variables are expressed in values at current prices and, therefore, the indices of change refer to changes in value.

Data collected through structural business statistics are used for analysis of the structure of business entities by activity (production value, value-added, employment etc.), analysis of factors used in the production process (number of persons employed, compensation of employees, investments etc.), analysis of national and regional development. In addition, structural business statistics data are used also as input for calculation of aggregates in national accounts and calculation of weights in short-term statistics.

The content of Structural business statistics (SBS) in the European community is defined by the EU Regulation 295/2008, implementing Regulations 250/2009, 251/2009 and 275/2010 and Regulation 446/2014 amending the basic and implementing regulations.

Statistics produced in line with these regulations are grouped in following modules:

- A common module for annual structural statistics, as defined in Annex I. This module has established a common framework for all market activities, in which service activities are defined for which a detailed module is not provided,
- A detailed module for structural statistics in industry, as defined in Annex II,
- A detailed module for structural statistics in trade, as defined in Annex III,
- A detailed module for structural statistics in construction, as defined in Annex IV,
- A detailed module for structural statistics in insurance, as defined in Annex V;
- A detailed module for statistics on credit institutions, as defined in Annex VI;
- A detailed module for statistics on pension funds, as defined in Annex VII;
- A detailed module for statistics on business services, as defined in Annex VIII;
- A detailed module for statistics on business demography, as defined in Annex IX.

For each module, annual, multi-annual and regional data series are defined. In addition, the data series that should be produced for kind of activity units are defined for module II and IV.

Regular production of structural business statistics in Bosnia and Herzegovina is conducted with aim of producing annual series of data for the first four Annexes of EU Regulation 295/2008.

The data for 2020 cover full Sections of activities from B to J and L to N, private sector from Sections P, Q and R and Section S, except division 94 from Section S.

SBS variables for entrepreneurs are calculated based on employment data for entrepreneurs that are taken from Statistical Business Register and data for enterprises.

Further development of structural business statistics will be based on full implementation of first four Annexes, which means, production of annual and multiannual series of data, regional series of data, as well as variables for the kind of activity units (KAU variables), and implementation of other Annexes of EU Regulation.

NOTES ON METHODOLOGY

Legal basis

The legal basis for the implementation of Structural Business surveys are Statistical programme of Bosnia and Herzegovina for 2021-2024, Annual statistical plan of the Agency for Statistics which are adopted based on Law on Statistics of BiH ("Official Gazette" No. 26/04 and 42/04), as plans and programmes of the entities Institutes which are harmonized with the Four-year program and Annual statistical plan of the Agency for Statistics of Bosnia and Herzegovina. In the European community, structural business statistics are defined by the EU Regulation 295/2008, implementing Regulations 250/2009, 251/2009 and 275/2010 and Regulation 446/2014 amending the basic and implementing regulations.

The aim of Structural Business Statistics

The aim of Structural Business Statistics is monitoring of business market units and providing comparable SBS data in accordance with European standards. Data collected through structural business statistics are used for analysis of the structure of business entities by activities (production value, value-added, employment etc.), analysis of factors used in the production process (number of persons employed, compensation of employees, investments etc.), analysis of national and regional development. In addition, Structural Business Statistics data are used also as input for calculation of aggregates in national accounts and calculation of weights in short-term statistics.

Coverage

The structural business statistics cover active enterprises and entrepreneurs from Statistical Business Register (SBR) which kept and maintained by the Agency for Statistics of BiH in cooperation with Institute for Statistics of Federation of BiH, Institute for Statistics of RS and Branch Office of Agency for Statistics BiH in Brcko District.

This Bulletin covers active enterprises and entrepreneurs, which are classified by main activity in the following Sections: B- Mining and Quarrying, C – Manufacturing, D - Electricity, gas, steam and air conditioning supply, E - Water supply; sewerage, waste management and remediation activities, F – Construction, G - Wholesale and retail trade; repair of motor vehicles and motorcycles, H - Transportation and storage, I - Accommodation and food service activities, J - Information and communication, L – Real estate activities, M - Professional, scientific and technical activities, N - Administrative and support service activities, P – Education (private sector), Q - Human health and social work activities (private sector). R - Arts, entertainment and recreation (private sector) and S - Other service activities, except 94 - Activities of membership organizations.

SOURCE AND METHODS OF DATA COLLECTION

Enterprises

The frame was made based on the data from the SBR as of 31st of December 2020. The frame includes active enterprises which either had turnover or employment at any time during the reference period.

Data for the compilation of SBS variables and indicators for enterprises are collected by statistical survey "Annual structural business statistical survey for the enterprises" with 20 and more persons employed. The data for other enterprises are taken from administrative and other sources of entities and Brcko District. The data are taken from the annual financial statements for RS and BD and from the Statistical Annex of the annual accounting statement for the Federation of BiH .

Entity institutes and branch office of Brcko District organized and carried out fieldwork in their respective territory. Printing of the survey materials (questionnaires, instructions and letters to the reporting units), distribution to the reporting units, collection, remind, check and data entry, micro data editing and estimations of totals were carried out in the entity institutes and for branch office of Brcko District was carried out Agency for Statistics of BiH.

Entity institutes and branch office of Brcko District submitted data from the annual financial statements and the statistical annex for enterprises with less than 20 persons employed to the Agency for Statistics of BiH. Agency for Statistics of BiH has carried out control of data, editing and calculation of variables for this part of the population.

Entrepreneurs

The frame was made based on the data from the SBR as of 31st of December 2020. The frame includes active entrepreneurs ie. entrepreneurs that had employment data from Unique System of Registration, Control and Collection of Contributions.

Variables for entrepreneurs are calculated based on employment data for entrepreneurs that are taken from Statistical Business Register and SBS data for enterprises. The estimation is done by the method of regression. Two coefficient are used, one coefficient of the number of persons employed and the other one coefficient of the number of employees. The coefficients are calculated on the NACE level three digits and classes of employment. Variables for entrepreneurs are calculated by multiplying the obtained coefficients with variables for enterprises at the level of three digits and classes of employment. Coefficient of the number of employees was used to estimate personnel costs and the coefficient of the number of persons employed was used for other variables.

Observation units

Several statistical units are used for the compilation of SBS. Most data refer to the „enterprise“ as a statistical unit. The Enterprise is the smallest combination of legal units that makes an organisational unit producing goods or services. It has a certain degree of autonomy in decision-making, especially in the allocation of its resources (legal persons and natural persons). For the calculation of regional data is used local unit, and for the calculation of KAU variables is used kind of activity unit.

The observation units in structural business statistics are enterprises (legal units) and entrepreneurs (natural persons) perform the activity in the economic territory of Bosnia and Herzegovina. These units are classified in the sections of activity that are listed in the „coverage“. Each enterprises and entrepreneurs are attributed a certain activity code according to the Classification of Activities BiH 2010 on the basis of their principal activity. The principal activity of the enterprise and entrepreneur is determined and updated by the Statistical Business Register. Criteria for determining the principal activity is the share of turnover in total turnover or share of number of persons employed in total number of persons employed of enterprise. However, statistical data for enterprise refer to the all activities carried out by the enterprise, including its secondary activities.

Data published in this bulletin refer to enterprises and entrepreneurs. In accordance with the EU recommendations, they are grouped by next classes of employment:

- Small (0 to 49 persons employed),
- Medium (50 to 249 persons employed) and
- Large (250 and more persons employed).

Classifications

Classification of Activities of Bosnia and Herzegovina 2010 – KD BiH 2010 was used for conducting Structural Business Statistics survey, which is in line with the EU NACE Rev. 2, according to which the data are published in this bulletin.

In the countries of EU, statistical data are collected and processed divided by statistical regions. As in BiH has not yet introduced the classification of regions according to EU NUTS classification, data are shown only by administrative breakdown, ie. for BiH, entities and BD.

DEFINITIONS OF VARIABLES AND INDICATORS

Variables

Number of enterprises

A count of the number of market enterprises registered to the population concerned in the statistical business register corrected for errors, in particular frame errors. Only active units which either had turnover or employment at any time during the reference period should be included. Dormant (temporarily inactive) and inactive units are excluded.

Number of entrepreneurs

A count of active entrepreneurs registered to the population concerned in the statistical business register ie. entrepreneurs that had employment data from Unique System of Registration, Control and Collection of Contributions.

Number of persons employed

The number of persons employed is defined as the total number of persons who work in the observation unit (including working proprietors, partners working regularly in the unit and unpaid family workers working regularly in the unit), as well as persons who work outside the unit who belong to it and are paid by it (e.g. sales representatives, delivery personnel, repair and maintenance teams). It includes persons absent for a short period (e.g. sick leave, paid leave or special leave), and also those on strike, but not those absent for an indefinite period. It also includes part-time workers who are regarded as such under the laws and who are on the pay-roll, as well as seasonal workers, apprentices and home workers on the pay-roll. Unpaid family workers refer to persons who live with the proprietor of the unit and work regularly for the unit, but do not have a contract of service and do not receive a fixed sum for the work they perform. The number of persons employed excludes manpower supplied to the unit by employment agencies or brokerage of employment.

Number of employees

The number of employees is defined as those persons who work for an employer and who have a contract of employment and receive compensation in the form of wages, salaries, fees, gratuities, piecework pay or remuneration in kind. The number of employees includes part-time workers, seasonal workers, and persons on strike or on short-term leave, but excludes those persons on long-term leave. The number of employees does not include voluntary workers.

Turnover

Turnover comprises revenues calculated from sales of products, goods and services by the reporting unit to third parties during the reference period. Turnover includes all duties and taxes on the goods or services invoiced by the unit with the exception of the value added type taxes (VAT). It also includes all other charges (transport, packaging, etc.) passed on to the customer, even if these charges are listed separately in the invoice.

Goods produced for own consumption or investment should be excluded from turnover. Reduction in prices, rebates and discounts as well as the value of returned packing must be deducted. Income classified as other operating income, financial income and extra-ordinary income and revenue from the use by others of enterprise assets yielding interest, royalties and dividends and other income is excluded from turnover. Operating subsidies received from public authorities are also excluded

Production value

The production value measures the amount actually produced by the unit. The production value is defined as turnover or revenue from sales of goods and rendering of services, plus or minus the changes in stocks of finished products and work in progress; minus the purchases of goods and services for resale (only for the goods and services sold during the reporting period); plus capitalized production, plus other operating income (including subsidies on products and

production). Income and expenditure classified as financial or as revenue in the form of interests and dividends in company accounts is excluded from production value. Capitalized production includes the own-account production of all goods that are retained by their producers as investment. The latter includes the production of fixed tangible assets (buildings, etc.) as well as intangible assets (development of software, etc.). Capitalized production is unsold production and is valued at production cost. These capital goods are also included in investment.

Value added at factor cost

Value added at factor cost is the gross income from operating activities after adjusting for operating subsidies and indirect taxes. It can be calculated from turnover, plus capitalised production, plus other operating income (including operating subsidies), plus or minus the changes in stocks of goods and services, minus the purchases of goods and services, minus other taxes on products which are linked to turnover but not deductible, minus the duties and taxes linked to production. The duties and taxes linked to production are compulsory, unrequited payments, in cash or in kind which are levied by general government in respect of the production and importation of goods and services, the employment of labour, the ownership or use of land, buildings or other assets used in production irrespective of the quantity or the value of goods and services produced or sold.

Personnel costs

Personnel costs are defined as the total remuneration, in cash or in kind, payable by an employer to an employee (regular and temporary employees as well as home workers) in return for work done by the latter during the reference period. Personnel costs also include taxes and employees' social security contributions retained by the unit as well as the employer's compulsory and voluntary social contributions. Included are all gratuities, workplace and performance bonuses, ex gratia payments, thirteenth month pay (and similar fixed bonuses), payments made to employees in consideration of dismissal, lodging, transport, cost of living and family allowances, commissions, attendance fees, over-time, night work etc. Payments for agency workers are not included in personnel costs.

Gross operating surplus

Gross operating surplus is the surplus generated by operating activities after the labour factor input has been recompensed. It can be calculated from the value added at factor cost less the personnel costs. It is the balance available to the unit which allows it to recompense the providers of own funds and debt, to pay taxes and eventually to finance all or a part of its investment.

Total purchases of goods and services

Purchases of goods and services include the value of all goods and services purchased during the accounting period for resale or consumption in the production process, excluding capital goods the consumption of which is registered as consumption of fixed capital. The goods and services concerned may be either resold with or without further transformation, completely used up in the production process or, finally, be stocked. Included in these purchases are the materials that enter directly into the goods produced (raw materials, intermediary products, components), plus non-capitalised small tools and equipment. Also included are the values of ancillary materials (lubricants, water, packaging, maintenance and repair materials, and office materials) as well as energy products. Included in this variable are the purchases of materials made for the production of capital goods by the unit. Services paid for during the reference period are also included. In this figure are payments for all work carried out by third parties on behalf of the unit including current repairs and maintenance, installation work and technical studies. Amounts paid for the installation of capital goods and the value of capitalised goods are excluded. Also included are payments made for non-industrial services such as legal and accountancy fees, patents and license fees (where they are not capitalised), insurance premiums, costs of meetings of shareholders and governing bodies, contributions to business and professional associations, postal, telephone, electronic communication, telegraph and fax charges, transport

services for goods and personnel, advertising costs, commissions (where they are not included in wages and salaries), rents, bank charges (excluding interest payments) and all other business services provided by third parties. Included are services which are transformed and capitalised by the unit as capitalised production. Expenditure classified as financial expenditure in the form of interests and dividends is excluded from the total purchases of goods and services. Purchases of goods and services are valued at the purchase price, i.e. the price the purchaser actually pays for the products, including any taxes less subsidies on the products bought excluding value added type taxes. All other taxes and duties on the products are therefore not deducted from the valuation of the purchases of goods and services. The treatment of taxes on production is not relevant in the valuation of these purchases.

Indicators

These indicators are calculated based on the calculated values of the variables.

Turnover per person employed

Turnover per person employed is obtained by dividing the total turnover with a total number of persons employed. This indicator expresses the ability of selling of business unit of specific activity.

Value added per person employed

Value added per person employed is obtained by dividing the total value added with a total number of persons employed. This indicator is used to measure productivity.

Share of value added in production value

Share of value added in production value is obtained by dividing the total value added with the total production value.

Average personnel costs per employee

Average personnel costs per employee is obtained by dividing the total personnel cost with number of employees. This indicator shows the average costs of employees in certain activity.

Gross operating rate - profitability

Gross operating rate show share of gross operating surplus in turnover.

	2020	43 404	18 584	55,7	12 348	29,9

Table 9.1. Basic structural business indicators, according to Sections and Divisions of KD BiH 2010 (NACE Rev. 2)

KD BiH 2010 (EU NACE Rev. 2) Sections/Divisions of activity	Turnover per person employed (KM)	Value added per person employed (KM)	Value added at factor cost in production (in %)	Average personnel costs per employee (KM)	Gross operating rate (in %)
TOTAL OF COVERED ACTIVITIES					
2018	126 500	29 952	40,9	15 814	12,2
2019	126 804	31 261	42,8	16 252	12,9
2020	120 705	31 390	44,6	16 897	13,2
B MINING AND QUARRYING					
2018	55 719	34 070	62,5	23 810	18,4
2019	54 199	33 497	62,0	24 677	16,3
2020	58 252	36 459	63,9	26 220	17,6
05 Mining of coal and lignite					
2018	46 739	33 445	69,6	26 251	15,4
2019	44 285	32 863	71,6	26 797	13,7
2020	45 758	33 881	72,3	28 508	11,7
06 Extraction of crude petroleum and natural gas					
2018	–	–	–	–	–
2019	–	–	–	–	–
2020	–	–	–	–	–
07 Mining of metal ores					
2018	78 987	43 481	57,3	20 428	29,2
2019	75 686	37 053	49,4	21 887	20,0
2020	84 323	43 481	55,4	23 951	23,2
08 Other mining and quarrying					
2018	83 628	28 747	40,7	15 109	16,3
2019	91 490	35 195	42,8	16 518	20,4
2020	106 473	47 022	48,3	17 311	27,9
09 Mining support service activities					
2018	36 288	22 230	67,2	16 263	16,4
2019	35 014	20 742	68,4	16 895	11,0
2020	33 441	17 342	57,7	15 462	5,6
C MANUFACTURING					
2018	107 005	25 988	26,4	14 280	11,4
2019	102 677	26 389	28,2	14 832	11,8
2020	95 252	27 569	31,6	15 309	13,5
10 Manufacture of food products					
2018	128 601	22 578	20,5	12 276	8,7
2019	131 497	26 349	23,1	13 220	10,7
2020	133 411	26 928	23,2	13 772	10,6

continued

KD BiH 2010 (EU NACE Rev. 2) Sections/Divisions of activity	Turnover per person employed (KM)	Value added per person employed (KM)	Value added at factor cost in production (in %)	Average personnel costs per employee (KM)	Gross operating rate (in %)
11 Manufacture of beverages					
2018	185 175	66 446	38,6	20 487	25,0
2019	191 183	68 784	41,0	21 745	24,7
2020	162 786	62 015	42,6	21 405	25,1
12 Manufacture of tobacco products					
2018	64 025	-35 537	-327,9	26 697	-97,2
2019	81 172	-50 506	-283,1	24 480	-92,4
2020	64 191	156	0,2	21 722	-33,6
13 Manufacture of textiles					
2018	88 805	21 339	24,2	12 180	10,7
2019	67 200	16 984	25,4	12 070	7,9
2020	66 158	18 760	28,1	13 382	8,9
14 Manufacture of wearing apparel					
2018	26 547	13 644	53,9	9 822	15,9
2019	26 119	13 596	53,8	10 144	14,8
2020	26 756	14 029	55,2	10 432	15,0
15 Manufacture of leather and related products					
2018	30 969	13 290	44,9	10 306	9,9
2019	28 648	14 285	49,6	11 105	11,4
2020	24 716	12 918	52,0	11 289	6,9
16 Manufacture of wood and of products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials					
2018	77 589	21 350	29,4	10 667	14,3
2019	76 721	21 349	29,8	11 096	13,9
2020	75 337	21 508	30,3	11 598	13,8
17 Manufacture of paper and paper products					
2018	201 536	50 025	30,1	18 896	15,6
2019	191 483	41 177	27,4	19 263	11,6
2020	200 796	40 787	28,0	19 250	10,9
18 Printing and reproduction of recorded media					
2018	116 725	37 439	42,9	16 550	19,6
2019	111 691	36 949	43,7	17 279	19,4
2020	101 801	36 186	46,0	17 559	20,3
19 Manufacture of coke and refined petroleum products					
2018	520 235	17 939	3,9	26 063	-1,6
2019	391 042	3 788	1,1	26 618	-5,8
2020	114 449	11 986	10,6	27 165	-13,3
