## PREDGOVOR

Bilten o industrijskoj proizvodnji je publikacija Agencije za statistiku Bosne i Hercegovine koja na sveobuhvatan način prikazuje službene statističke podatke o karakteristikama industrijske proizvodnje na nivou Bosne i Hercegovine.

Prema Zakonu o statistici BiH (Službeni glasnik BiH, broj 26/04 i 42/04) Agencija za statistiku Bosne i Hercegovine nadležna je da, u skladu sa međunarodno prihvaćenom metodologijom, izrađuje i objavljuje službene statističke podatke za Bosnu i Hercegovinu koristeći podatke entitetskih zavoda za statistiku i ekspoziture Agencije za statistiku Bosne i Hercegovine – Distrikt Brčko.

Podaci o godišnjoj redovnoj industrijskoj proizvodnji u Bosni i Hercegovini tj. proizvodnji za vlastiti račun, prvi put su na jedinstven način prikupljeni za 2003. godinu, a rezultati su objavljeni početkom 2005. godine. Nakon toga se godišnji podaci o industrijskoj proizvodnji u Bosni i Hercegovini redovno publikuju.

Redovno prikupljanje i obrada godišnjih podataka o industrijskoj proizvodnji u BiH zasniva se na korištenju jedinstvene Nomenklature industrijskih proizvoda Bosne i Hercegovine, koja se mora redovno usaglašavati sa odgovarajućim propisima i nomenklaturama Evropske Unije, kao i na primjeni jedinstvenog metodološkog pristupa. Do 2009. godine je za prikupljanje podataka o industrijskoj proizvodnji u BiH korištena Nomenklature industrijskih proizvoda Bosne i Hercegovine NIP BiH (bazirana na relevantnim standardima Evropske Unije: klasifikaciji djelatnosti NACE Rev 1.1 i PRODCOM listi iz 2005).

U okviru zajedničke međunarodne i evropske revizije centralnih ekonomskih klasifikacija djelatnosti i proizvoda izvršena je značajna promjena klasifikacije Evropske Unije. Revizije su u direktnoj vezi sa revizijama UN standarda: ISIC and CPC. Do 01.01.2009. godine je u svim zemljama članicama EU izvršen proces prelaska na obaveznu primjenu klasifikacije djelatnosti NACE Rev2<sup>1)</sup>, klasifikacije proizvoda po djelatnosti CPA 2008 i pripadajuće PRODCOM liste u strukturnim PRODCOM i kratkoročnim statistikama. PRODCOM lista 2008<sup>2)</sup> je prva revidirana lista bazirana na revidiranom sistemu centralnih ekonomskih klasifikacija.

U skladu sa promjenom EU klasifikacije izvršena je revizija odgovarajućih statističkih klasifikacija i nomenklatura u Bosni i Hercegovini. Uvedena je Klasifikacija djelatnosti Bosne i Hercegovine 2010 - KD BiH 2010 (Službeni glasnik BiH, br. 47/10 od 08.06.2010) i Nomenklatura industrijskih proizvoda NIP BiH 2010 (Službeni glasnik BiH, br. 12/11 od 15.02.2011 i 41/11, 26. 05.2011) koja je potpuno usaglašena sa PRODCOM listom iz 2010. godine<sup>3)</sup>. Ova publikacija je pripremljena na osnovu KD BiH 2010 i NIP BiH 2010 koja je ažurirana na osnovu PRODCOM liste za 2011. godinu.

Izražavamo zahvalnost Federalnom zavodu za statistiku Federacije Bosne i Hercegovine i Republičkom zavodu za statistiku Republike Srpske koji su Agenciji za statistiku BiH omogućili da na osnovu njihovih podataka pripreme ovu publikaciju.

Zahvaljujemo na svim sugestijama i primjedbama koje će omogućiti bolji kvalitet slijedećeg biltena.

Sarajevo, novembar 2011.

Direktor  
Zdenko Milinović

<sup>1)</sup> NACE je akronim izveden iz francuskog naziva klasifikacije ekonomskih djelatnosti EU: "Nomenclature statistique des Activités économiques dans la Communauté Européenne" čija je primjena regulisana slijedećim propisima:

NACE Rev.1 - prva jedinstvena klasifikacija ekonomskih djelatnosti EU utvrđena propisom Vijeća Evropske Zajednice (Council Regulation (EEC) No. 3037/90, od 09. 10. 1990. godine),

NACE Rev.1.1 - ažurirana verzija NACE Rev 1, utvrđena propisom Evropske Komisije (European Commission - EC) No. 29/2002, od 19. 12. 2001. godine) - Statistical Classification of Economic Activities in the European Community). NACE Rev.1.1 je bila u primjeni u zemljama članicama Evropske Unije od 01.01. 2003. godine

NACE Rev 2-nova značajna revizija klasifikacije ekonomskih djelatnosti EU uspostavljena Propisom EC No. 1893/2006, 20.12.2006. i ona je u primjeni od 01.01.2008. godine u zemljama EU

<sup>2)</sup> Commission Regulation (EC) No 36/2009, od 11.07.2008. godine

<sup>3)</sup> Commission Regulation (EU) No 163/2010, od 09.02.2010. godine

## FOREWORD

Bulletin on industrial production is a publication of the Agency for Statistics of Bosnia and Herzegovina that contains a comprehensive overview of official statistical data on characteristics of industrial production in Bosnia and Herzegovina.

According to the Statistical Law of Bosnia and Herzegovina (Official Gazette of Bosnia and Herzegovina, No. 26/04 and 42/04) Agency for Statistics of Bosnia and Herzegovina is in charge of the production and publishing of aggregated official statistics for Bosnia and Herzegovina, in accordance with the internationally accepted methodology, using data submitted by the Entity Statistical Institutes and by the Branch Office of the Agency for Statistics of Bosnia and Herzegovina - District Brčko.

Data on annual industrial production on own account, in Bosnia and Herzegovina were collected uniformly for the first time for the year 2003, and the results were published in the beginning of 2005. From that point onward annual results on industrial production have been published on regular basis.

Regular annual data collection on industrial production in Bosnia and Herzegovina and consequent data processing are based on use of single Nomenclature of industrial production in Bosnia and Herzegovina – NIP BiH, which is to be regularly updated with relevant regulations and nomenclatures of European Union, and also on uniform methodological approach. Since 2009, data on industrial production in Bosnia and Herzegovina were collected using Nomenclature of industrial products NIP BiH (based on relevant EU standards: Classification of economic activities NACE Rev1.1 and PRODCOM list from 2005).

In the scope of international and European operation on revision of the central economic classifications of activities and products, a quite significant revision of EU classifications was done. Revisions are strictly linked to the revisions of UN standards: ISIC and CPC. Till 01.01.2009 all EU member states completed the switch-over process and started implementing Classification of Activities NACE Rev 2<sup>4)</sup>, Classification of Products by Activity CPA 2008 and relevant PRODCOM list in their SBS, PRODCOM and STS statistics. PRODCOM list 2008<sup>5)</sup> is the first revised list based on revised system of central economic classifications.

Changes in EU classifications were followed in Bosnia and Herzegovina by introducing the corresponding revised classifications and nomenclatures: Classification of Activity of Bosnia and Herzegovina 2010 - KD BiH (Official Gazette of BiH No. 47/10, 08.06.2010) and Nomenclature of Industrial Products –NIP BiH 2010 (Official Gazette of BiH No. 12/11, 15.02.2011 and 41/11, 26. 05.2011), which is fully compliant with PRODCOM list 2010<sup>6)</sup>. The publication is prepared using KD BiH 2010 and NIP BiH 2010, updated by PRODCOM list 2011.

We would like to take this opportunity to express our gratitude to the Institute for Statistics of the Federation of Bosnia and Herzegovina and the Institute for Statistics of Republika Srpska for providing data necessary for this publication

All suggestions by users of statistical data, which lead to further improvements of this publication, will be gratefully accepted

Sarajevo, November 2011

<sup>4)</sup> NACE is the acronym derived from French description of statistical classification of economic activities in the European Union: "Nomenclature statistique des activités économiques dans la Communauté européenne". Its implementation is imposed by the following major regulations: NACE Rev.1 – the first common classification of economic activities in EU, set by the Council (EEC) Regulation No. 3037/90, dated on 09. 10. 1990.),

NACE Rev.1.1 – minor update version of NACE Rev 1, set by the European Commission (EC) Regulation No. 29/2002 dated on 19. 12. 2001. Statistical Classification of Economic Activities in the European Community. NACE Rev.1.1 was in use in EU member states since 01.01. 2003.

NACE Rev 2 - the outcome of a major revision work of the central system of economic classifications which took place between 2000 and 2007. It is set by the European Commission (EC) Regulation No 1893/2006, dated on 20.12.2006. NACE Rev 2 has been in use in EU member states since 01.01.2008.

<sup>5)</sup> Commission Regulation (EC) No 36/2009, dated on 11.07.2008.

<sup>6)</sup> Commission Regulation (EU) No 163/2010, dated on 09. 02. 2010.

## UVOD

Podaci o godišnjoj redovnoj industrijskoj proizvodnji za vlastiti račun u Bosni i Hercegovini su prvi put publikovani početkom 2005. godine, prikazujući godišnju proizvodnju u 2003. godini. Nakon toga, rezultati ovog istraživanja su uvršteni u redovan program publikovanja Agencije za statistiku BiH.

Počevši od godišnjih podataka za 2005. godinu redovno se objavljuju i podaci o proizvodnji na osnovu ugovora, a ne samo podaci o redovnoj industrijskoj proizvodnji (proizvodnji za vlastiti račun).

Godišnje istraživanje industrije IND-21 u Bosni i Hercegovini za 2010. godinu je orijentisano na prikupljanje i analizu podataka o industrijskoj proizvodnji na nivou proizvoda, dok se prikupljanje podataka o strukturi proizvodnje provodi kao posebno istraživanje saglasno standardima Evropske Unije (SBS propisi<sup>7)</sup>). Godišnje istraživanje na nivou proizvoda je potpuno usaglašeno među službenim statističkim institucijama BiH, a u značajnoj mjeri i sa međunarodnim, prvenstveno evropskim standardima i propisima. Za godišnje istraživanje industrije definisani su slijedeći osnovni ciljevi:

- prikupljanje, obrada i objavljivanje godišnjih podataka o industrijskoj proizvodnji koja se obavlja u BiH, odnosno na teritoriji pojedinih entiteta i njihovih administrativnih jedinica, kao i u Brčko distriktu BiH, i to na nivou proizvoda iz Nomenklature industrijskih proizvoda Bosne i Hercegovine - NIP BiH 2010 (zasnovane na PRODCOM listi iz 2010. godine) tj. provođenje tzv. godišnjeg PRODCOM istraživanja industrijske proizvodnje na osnovu proizvoda;
- prikupljanje podataka za određivanje harmonizovanog sistema ponderisanja (nivo makro proizvoda), na osnovu koga će se kompilirati mjesečni indeks fizičkog obima industrijske proizvodnje za Bosnu i Hercegovinu, svaki entitet i u Brčko distrikt BiH, saglasno evropskim standardima i propisima;
- diseminacija podataka o industrijskoj proizvodnji (PRODCOM rezultata) domaćim i međunarodnim korisnicima.

**PRODCOM istraživanje** je orijentisano na proizvod i bavi se direktnim podacima vezanim za obim proizvodnje, obim i vrijednost prodaje industrijske proizvodnje na nivou pojedinačnog proizvoda iz nomenklature industrijskih proizvoda. Predmet istraživanja je industrijska proizvodnja u izvještajnoj godini na području Bosne i Hercegovine.

Ova publikacija sistematizuje podatke prikupljene kroz godišnje PRODCOM istraživanje industrije za 2010. godinu i daje pregled obima proizvodnje, obima i vrijednosti prodaje industrijskih proizvoda (robe i usluge) u Bosni i Hercegovini, koje su rezultat redovne proizvodnje izvještajnih jedinica (0) i proizvodnje koju izvještajne jedinice obavljaju na osnovu ugovora (1).

Podaci o industrijskoj proizvodnji u 2010. godini prikupljeni su na osnovu Nomenklature industrijskih proizvoda Bosne i Hercegovine - NIP BiH 2010 koja je objavljena u Službenom glasniku Bosne i Hercegovine broj 12/11 od 15.02.2011 godine. NIP BiH 2010 je od 2010. godine u obaveznoj primjeni u godišnjim istraživanjima industrije, a od 2012. godine biće u primjeni u svim statističkim istraživanjima u području industrije i svim statističkim istraživanjima koja zahtjevaju prikupljanje, obradu i prikazivanje rezultata prema vrsti industrijskih proizvoda. Direktno upoređivanje PRODCOM podataka za 2010. godinu sa objavljenim podacima iz prethodnih godina se ne može uraditi direktno na nivou proizvoda, bez prethodnog pregrupisanja historijskih podataka saglasno novoj nomenklaturi. Za svrhe pregrupisanja i međusobnog upoređivanja podataka o proizvoima koriste se posebne tabele veza i koeficijenti transformacije između stare i nove nomenklature industrijskih proizvoda. U ovoj publikaciji upoređujemo samo zbirne podatke iz 2009. i 2010. godine zbog obimnosti posla na preračunavanju svih raspoloživih historijskih podataka.

## METODOLOŠKA OBJAŠNJENJA

### ORGANIZACIJA ISTRAŽIVANJA

U provođenju godišnjeg istraživanja industrije sudjeluju Agencija za statistiku Bosne i Hercegovine (BHAS), Federalni zavod za statistiku (FZS) i njegovi kantonalni uredi, Republički zavod za statistiku Republike Srpske i njegova područna. odjeljenja (RZSRS) i Ekspozitura Agencije za statistiku Bosne i Hercegovine - Brčko distrikt (EDB).

BHAS, FZS i RZSRS su u punoj saradnji usaglasili metodologiju godišnjeg istraživanja industrije za 2010. godinu tj. zajednički su dogovoreni sadržaj i izgled obrasca i uputstvo za popunjavanje obrasca. Također su zajednički utvrdili tabele veza između stare i nove nomenklature industrijskih proizvoda i koeficijente transformacije za pregrupisanje historijskih podataka (na osnovu podataka i kontakata sa jedinicama posmatranja i na osnovu ekspertskih procjena).

U okviru svoje standardne prakse FZS, RZSRS i EDB vode i ažuriraju vlastite statističke poslovne registre koji su osnova za utvrđivanje obuhvata statističkih jedinica za PRODCOM istraživanje.

FZS, RZSRS i EDB su utvrdili obuhvat statističkih jedinica istraživanja, organizovali sav terenski rad tj. štampali i distribuirali obrasce i druge materijale potrebne za provođenje istraživanja i prikupili podatke.

FZS, RZSRS i EDB su održali potrebne instruktaže po pojedinim kantonalnim/regionalnim ili centralnim uredima i zajedno sa statističarima lokalnih ureda za statistiku organizovali neposredni obilazak izvještajnih jedinica, kada je to bilo potrebno, a važnije metodološke poteškoće direktno rješavali sa izvještajnom jedinicom.

Na osnovu upitnika i utvrđenih ciljeva istraživanja u oba entitetska zavoda za statistiku su razvijene aplikacije za unos, kontrolu i obradu podataka godišnjeg istraživanja industrije.

Agencija za statistiku Bosne i Hercegovine je sa FZS i RZSRS dogovorila rokove, sadržaj, vrstu i formu dostavljanja podataka za dalju obradu i razvila aplikaciju za prihvatanje, agregiranje i izračunavanje PRODCOM rezultata za nivo Bosne i Hercegovine.

FZS, RZSRS i EDB su prikupili popunjene upitnike i obavili unos, analizu i kontrolu podataka. Ovako prečišćeni podaci su dostavljeni Agenciji za statistiku Bosne i Hercegovine u dogovorenoj formi.

BHAS je izvršila agregiranje podataka koje su prikupili FZS, RZSRS i EDB, pripremu i objavljivanje PRODCOM rezultata za nivo Bosne i Hercegovine. Podaci za nivo BiH su kompilirani i publikovani iz prečišćenih i kontrolisanih podataka entitetskih zavoda i EDB.

## KONCEPTI I DEFINICIJE

### POJAM INDUSTRIJE

Pojam industrije koji se koristi u godišnjem istraživanju industrije IND-21, definisan je s četiri područja klasifikacije djelatnosti (saglasno NACE Rev.2) :

- B - VAĐENJE RUDA I KAMENA,
- C - PRERAĐIVAČKA INDUSTRIJA
- D - PROIZVODNJA I SNABDIJEVANJE ELEKTRIČNOM ENERGIJOM, PLINOM, PAROM I KLIMATIZACIJA
- E - SNABDIJEVANJE VODOM; UKLANJANJE OTPADNIH VODA, UPRAVLJANJE OTPADOM I DJELATNOSTI SANACIJE OKOLIŠA

Definicija pojma industrije je potpuno saglasna definiciji industrije EU-a. Ipak, neki su proizvodi koji se, shodno promjenama statističkih standarda EU, isključeni iz PRODCOM liste, zbog njihovog značaja u BiH privredi i nepostojanja drugih specifičnih istraživanja u BiH i dalje uključeni u NIP BiH 2010. Na ovaj se način osiguravaju neophodni podaci za adekvatno praćenje promjena proizvodnje i strukture ukupne industrijske proizvodnje u Bosni i Hercegovini.

Koncepti i definicije svih osnovnih pojmova korištenih u godišnjem PRODCOM istraživanju industrije (kao što su: glavna, sporedna i pomoćna djelatnost, statističke jedinice, proizvod, robe, usluge, redovna proizvodnja tj. proizvodnja za vlastiti račun, proizvodnja na osnovu ugovora tj. outsourcing, i sl.), uzeti su iz uvoda u NACE Rev. 2, iz EU propisa o statističkim jedinicama za posmatranje i analizu proizvodnog sistema EU-e<sup>8)</sup>, uvoda u ISIC Rev. 4<sup>9)</sup> i uvoda PRODCOM liste iz 2010, a usklađeni su s metodološkim okvirom SNA 93/SNA 2008 i ESA 95<sup>10)</sup>.

Sva specifična objašnjenja data u ovom poglavlju odnose se samo na PRODCOM dio godišnjeg istraživanja industrije, čiji se rezultati, vezani za redovnu industrijsku proizvodnju i proizvodnju na osnovu ugovora, objavljuju u ovoj publikaciji.

## **STATISTIČKE JEDINICE**

Statističke jedinice u poslovnoj statistici su autonomne institucije ili njihovi dijelovi koji se bave nekim ekonomskim djelatnostima. One se bave ekonomskim transakcijama roba i usluga pri čemu angažuju vlastitu radnu snagu za proizvodnju roba i usluga koje se mogu prodati, davati drugima bez naknade ili koristiti za dalju proizvodnju. Važna karakteristika je to da mogu stvarati finansijske obaveze i mogu posjedovati materijalna i nematerijalna sredstva.

**Jedinice posmatranja** su one jedinice za koje se kompiliraju statistički rezultati u cilju praćenja njihovih karakteristika. Osnovno ograničenje koje se postavlja na jedinicu posmatranja je njena autonomnost u odnosu na finansiranje i proces proizvodnje.

Ovo kao rezultat ima dva tipa jedinica posmatranja:

1. jedinice koje su potpuno autonomne u odnosu na sve funkcije vezane za finansiranje i proces proizvodnje (preduzeće) i
2. jedinice koje su autonomne samo u odnosu na proces proizvodnje (jedinice u sastavu preduzeća). Autonomija u donošenju odluka znači da takve jedinice imaju administrativnu evidenciju o svim osnovnim karakteristikama procesa.

**Izvještajne jedinice** su statističke jedinice od kojih se traži da dostave podatke. To mogu biti same jedinice posmatranja ili sasvim odvojene jedinice.

U PRODCOM dijelu godišnjeg istraživanja industrije izvještajne jedinice su pravne osobe tj. preduzeća koja su u Registru poslovnih subjekata FZS, RZSRS i EDB razvrstana u područja djelatnosti B, C, D i E (industrija), kao i ona preduzeća koja nisu razvrstana u područja industrije, ali u svom sastavu imaju jedinice koje se bave industrijskom djelatnošću.

Jedinice posmatranja u PRODCOM dijelu godišnjeg istraživanja industrije su preduzeća i njihove jedinice u sastavu, koje se bave industrijskom djelatnošću. Rezultat industrijske djelatnosti su dobra i usluge tj. proizvodi definisani u nomenklaturi industrijskih proizvoda.

**Preduzeće** je najmanja kombinacija pravnih jedinica koja čini organizacionu jedinicu za proizvodnju dobara i usluga i ima određeni stepen autonomije pri odlučivanju, posebno pri raspoređivanju vlastitih resursa. Preduzeće obavlja jednu ili više djelatnosti na jednoj ili više lokacija.

**Lokalna jedinica** - je preduzeće ili njegov dio (npr. radionica, fabrika, skladište, kancelarija, rudnik, stovarište) smješteno na geografski određenom mjestu. Na svakom ili sa svakog od tih mjesta, izuzev u nekim posebnim slučajevima, jedna ili više osoba obavlja neku ekonomsku djelatnost (nekad i samo dio radnoga vremena), za jedno te isto preduzeće.

---

<sup>8)</sup> Propis o statističkim jedinicama za posmatranje i analizu proizvodnog sistema EU-a (Council Regulation (EEC) No 696/93 on the statistical units for observation and analysing within European Community)

<sup>9)</sup> ISIC Rev. 4 - International Standard Industrial Classification (Međunarodna standardna industrijska klasifikacija svih ekonomskih djelatnosti)

<sup>10)</sup> Sistem nacionalnih računa Ujedinjenih Nacija (System of National Accounts) 1993 - SNA 93 i SNA 2008 i Evropski sistem nacionalnih računa 1995 (European System of Accounts) - ESA 95 (Propis Vijeća EU No 2223/96), usklađen sa SNA 93.

Djelatnost statističke jedinice se određuje na nivou razreda klasifikacije djelatnosti Bosne i Hercegovine KD BiH 2010.

## **PROIZVODI**

**Proizvod** - je izlaz tj. rezultat neke industrijske djelatnosti, a definisan je Nomenklaturom industrijskih proizvoda. Ovaj se termin koristi kao opći naziv za robe, odnosno dobra koji imaju fizičku dimenziju, ali i za usluge.

**Dobra** – su fizički predmeti (objekti) za kojima postoji potreba na tržištu i nad kojima se može utvrditi pravo vlasništva, koje se može prenijeti sa jedne pravne jedinice na drugu u okviru tržišnih transakcija. Za njima postoji potreba zato što se mogu koristiti za zadovoljenje potreba ili želja domaćinstava ili društvene zajednice ili se mogu iskoristiti za proizvodnju drugih dobara ili usluga. Proizvodnja i razmjena dobara su sasvim različite djelatnosti. Neka se dobra uopće ne mogu razmjenjivati, dok se druga mogu prodati ili kupiti više puta. Razdvajanje proizvodnje dobara od njihove prodaje i dalje preprodaje je ekonomski značajna odlika dobara, koju usluge nemaju.

**Roba** - je prenosivo dobro koje je moguće razmjenjivati. Ona može biti samo serijski proizvod s proizvodne linije, jedinstveni primjerak (umjetnička slika) ili materijalni medij za pružanje usluge (disketa na kojoj je zapisan traženi software). To je pojam koji se koristi u carinskim klasifikacijama.

**Poluproizvodi** – su proizvodi koji su prošli fazu obrade, ali zahtijevaju dodatnu obradu kako bi bili pogodni za korištenje. Mogu biti prodati za dalju obradu drugim prerađivačima, a jedan od tipičnih primjera za to su grubi metalni odljevci prodati drugima radi dovršavanja.

**Gotov proizvod** - je svaki proizvod koji je u procesu proizvodnje dostigao odgovarajući stepen prerade ili dorade tako da je u nomenklaturi industrijskih proizvoda naveden pod posebnom šifrom i nazivom. Pojam tako definisanog gotovog proizvoda obuhvata i sve radove dovršavanja proizvoda kojima pripadaju čišćenje, pakovanje, ispitivanje kvaliteta, klasiranje i slično. Neispravni proizvodi ("škart") se ne smatraju gotovim proizvodima.

**Intermedijarni proizvod** - je proizvod koji je dostigao određeni stepen prerade ili dorade tako da je definisan u nomenklaturi industrijskih proizvoda, a koji je proizvelo preduzeće/lokalna jedinica. Ovaj se proizvod u istom preduzeću, u istoj ili drugoj lokalnoj jedinici u sastavu tog preduzeća dalje prerađuje ili obrađuje i takvim se postupcima pretvara u novi proizvod iz nomenklature industrijskih proizvoda (ili se ugrađuje u novi proizvod). Ovi proizvodi se posebno iskazuju u PRODCOM istraživanju kao proizvodi utrošeni za dalju proizvodnju u istom preduzeću/lokalnoj jedinici. Proizvodi kupljeni od trećih osoba radi preprodaje u istom obliku u kojem su i kupljeni ne smatraju se intermedijarnim proizvodima, kao ni proizvodi koji se koriste za bruto investicije u vlastiti fiksni kapital preduzeća ili njihovih jedinica u sastavu.

**Nedovršen proizvod** - Proizvod koji nije dosegao određeni stepen prerade ili dorade definisan Nomenklaturom NIP BiH 2010 smatra se nedovršenim i ne iskazuje se u PRODCOM istraživanju.

**Usluge** - nisu zasebne cjeline tj. izlazi proizvodnog procesa nad kojima se može utvrditi pravo vlasništva. Njima se ne može trgovati (mogu se razmjenjivati) odvojeno od proizvodnje. Usluge su heterogeni izlazi koji se proizvode po narudžbi, a u principu se sastoje od promjena stanja ulaza (predmeta ili sirovina), do kojih dolazi na osnovu djelatnosti proizvođača, na zahtjev korisnika. Po završetku ove vrste proizvodnje, usluge se moraju isporučiti korisniku. Pružanje usluga se mora ograničiti na one djelatnosti koje se mogu obaviti u jednoj jedinici, a za potrebe druge jedinice.

## PROIZVODNJA

**Proizvodnja** - je djelatnost čiji je rezultat proizvod. Termin se koristi u vezi s cijelim nizom ekonomskih djelatnosti. U domenu industrije proizvodnja je proces čiji je rezultat industrijski proizvod definisan Nomenklaturom industrijskih proizvoda, a to znači roba ili usluge.

Proizvodnja je postupak obrade sirovina, materijala, poluproizvoda i drugih sličnih ulaza (inputa) za koji je karakteristično to da ulazi po okončanju postupka obrade mijenjaju svoj prvobitni oblik i odlike tj. rezultat obrade je novi proizvod.

U statistici industrije koriste se i precizniji pojmovi za definisanje proizvodnje: **redovna proizvodnja**, **uslužna proizvodnja** industrijskih proizvoda (**proizvodnja na osnovu ugovora**), **ukupna proizvodnja**, **pružanje industrijskih usluga** (obrada, prerada, montaža itd.), zavisno od glavnih karakteristika djelatnosti koja se obavlja i zavisno od toga ko je vlasnik sirovina i drugih ulaza u proces obrade, ali i zavisno od toga za čiji se račun obavlja proizvodnja ili pružaju usluge.

### Redovna - vlastita proizvodnja

To je proizvodnja koju obavlja jedinica posmatranja (preduzeće/lokalna jedinica) koristeći kupljene ili vlastite sirovine. Jedinica posmatranja je vlasnik gotovog proizvoda i ona sama prodaje svoje proizvode na tržištu i daje sve količinske i vrjednosne podatke o proizvodnji. Treba istaći da se na isti način definišu i posebne vrste industrijskih usluga, koje su kao poseban proizvod uključene u NIP BiH 2010 (dorada za vlastiti račun, popravci i održavanje).

### Proizvodnja, odnosno prerada na osnovu ugovora – (Outsourcing)

**Outsourcing** je ugovorni odnos prema kojem Naručilac zahtjeva od Izvršioca obavljanje specifičnih zadataka, poput dijelova proizvodnog procesa ili čak kompletnog proizvodnog procesa iz domena djelatnosti naručioca. Naručilac i Izvršilac ne mogu biti preduzeće i lokalna jedinica u sastavu istog preduzeća, tj. ugovorena proizvodnja među različitim pogonima istog preduzeća nije moguća.

Ponekad se za ovu situaciju koristi i termin: proizvodnja na osnovu ugovora.

Izvršilac na osnovu ugovora sa Naručiocem proizvodi ili prerađuje određeni proizvod.

Outsourcing je veoma važan koncept koji se mora pravilno koristiti pri utvrđivanju samog obuhvata industrijske statistike, kao i pri provođenju istraživanja u oblasti industrije. Ovo je najčešći i po svojoj suštini granični slučaj između prerađivačke industrije i trgovine na veliko.

**Naručilac** je jedinica koja ulazi u ugovorni odnos s drugom jedinicom (ovdje nazvanom Izvršilac) kako bi ta druga jedinica obavila specifične zadatke, poput dijelova proizvodnog procesa ili čak kompletnog proizvodnog procesa.

**Izvršilac** je jedinica koja obavlja specifične zadatke, poput dijelova proizvodnog procesa ili čak cjelokupnog proizvodnog procesa, na osnovu ugovornog odnosa s naručiocem. Također se koristi termin podugovarač.

## PODACI

U godišnjem PRODCOM istraživanju industrije (PRODCOM istraživanje) prikupljaju se podaci o ukupno ostvarenoj proizvodnji, internoj potrošnji (proizvodnja utrošena za dalju obradu u istom preduzeću), zalihama i prodaji pojedinačnih proizvoda koji su definisani Nomenklaturom industrijskih proizvoda NIP BiH 2010, ažuriranoj u skladu sa važećom PRODCOM listom za datu godinu. Na taj su način, za neki konkretan proizvod, prikazani proizvodnja kao izvor raspoloživih količina, a potrošnja, prodaja i završne zalihe, kao rashodna strana bilansa raspoloživih količina. Pri tome se svi navedeni podaci skupljaju za dvije različite vrste proizvodnje:

- Vlastitu proizvodnju
- Proizvodnju na osnovu ugovora (outsourcing)

PRODCOM propis definiše četiri tipa PRODCOM rezultata (**S**, **T**, **V** i **I**) koje je neophodno proizvesti (saglasno važećoj PRODCOM listi), a koji osiguravaju međunarodnu uporedivost:

**Ukupna proizvodnja – T** je ukupna količina određenog proizvoda definisanog Nomenklaturom industrijskih proizvoda, proizvedena u jedinici posmatranja u izvještajnoj godini, bez obzira na to da li je prodata trećim osobama u zemlji ili inostranstvu (izvoz), stavljena na zalihe gotovih proizvoda (namijenjenih prodaji) ili se koristila za dalju internu preradu (intermedijarni proizvodi), ili kombinovano.

Ukupna proizvodnja se iskazuje po obimu, tj. u mjernim jedinicama fizičkog obima, bilo da su proizvodi:

- Transformisani (processed into) u drugi proizvod
- Ugrađeni (fitted in) u drugi proizvod
- Stavljene na zalihe

Ovo uključuje i one proizvode koji su dalje upotrijebljeni u istom preduzeću za proizvodnju drugog proizvoda.

Osim toga, za ukupnu proizvodnju se iskazuju vrijednost i obim proizvodnje.

**Prodana proizvodnja – S** podrazumijevaju se količine i ukupna vrijednost proizvoda koji su bilo kada proizvedeni, a koji su prodani (fakturisani) u izvještajnom periodu.

Prodana proizvodnja se iskazuje po vrijednosti i obimu (količini) izraženom u propisanoj mjernoj jedinici. U nekim slučajevima u PRODCOM listi 2010 nije precizirana jedinica obima, ali u tim slučajevima su u NIP BiH 2010 one precizirane po uzoru na NIP BiH iz 2005. godine.

**Vrijednost prodane proizvodnje** – se obračunava na osnovu prodajne cijene na izlazu iz preduzeća (*ex - works*) i prodane količine u toku izvještajnog perioda. Vrijednost prodane proizvodnje uvijek uključuje i troškove pakovanja, čak i kada su ovi troškovi fakturisani posebno. Međutim, vrijednost prodane proizvodnje ne obuhvata:

- poreze na promet ili takse koje se naplaćuju od potrošača,
- posebno obračunate i fakturisane troškove,
- popuste potrošačima

**Industrijske usluge – I** obuhvataju usluge dorade, popravke, održavanja i sastavljanja (montaža, odnosno instaliranje i asembliranje) koje vrši jedinica posmatranja (preduzeće/lokalna jedinica), a koje

su posebno fakturisane. Industrijske usluge (usluga je “proizvod”) se iskazuju po svakoj pojedinačnoj vrsti izvršene usluge, i to kao vrijedost plaćene naknade za izvršenu uslugu (u ovom slučaju industrijska usluga je “PRODCOM proizvod”, specifikovan u NIP BiH 2010.

**Obim ukupne proizvodnje – V** se odnosi na fizičke proizvode (robu) i prikazuje ukupna količina određenog proizvoda proizvedena u jedinici posmatranja u izvještajnoj godini izražena u specifikovanoj mjernoj jedinici. Ne izvještava se o prodatoj proizvodnji.

Podaci prikupljeni u Bosni i Hercegovini kroz PRODCOM istraživanje omogućavaju izračunavanje navedenih tipova rezultata.

**Proizvodnja na osnovu ugovora tj. “outsourcing”** (proizvodnja robe i pružanje industrijskih usluga na osnovu ugovora) je vrlo važan tip industrijske proizvodnje koja se dosta često javlja u BiH te joj se zbog toga posvećuje posebna pažnja u PRODCOM istraživanju tako da se u ovoj publikaciji prikazuje odvojeno od redovne proizvodnje (proizvodnja za vlastiti račun).

Podatke o ovoj proizvodnji daje preduzeće/lokalna jedinica koja vrši proizvodnju na bazi ugovora (ona je jedinica posmatranja), i to: podatak o proizvedenoj količini i podatak o naknadi za proizvodnju (iznos koji naručilac plaća za ovu uslugu). Naručilac proizvodnje (ako je resident BiH) daje podatak o prodatoj količini i vrijednosti prodaje.

**Jedinična vrijednost proizvoda** - prodatih proizvoda predstavlja prosječnu vrijednost jedinice proizvoda, a ne pravu prosječnu cijenu tih proizvoda. Ovaj se podatak ne prikuplja direktno već se dobije dijeljenjem ukupne vrijednosti prodalog proizvoda (suma podataka iz svih jedinica proizvodnje) ukupnom prodatom količinama proizvoda, a izražena je u konvertibilnim markama (KM).

## **PRIKUPLJANJE PODATAKA - IZVJEŠTAVANJE**

U skladu sa zahtjevima PRODCOM propisa izvještajna jedinica popunjava sve tražene podatke u slučaju da se radi o redovnoj tj. vlastitoj proizvodnji.

U slučaju proizvodnje na osnovu ugovora javljaju se dvije vrste izvještajnih jedinica: Naručilac proizvodnje i Izvršilac proizvodnje.

- Izvršilac proizvodnje izvještava o proizvodnji (koju stvarno obavlja) i popunjava samo podatke o proizvedenoj količini i vrijednosti nadoknade za izvršenu proizvodnju koju naplaćuje od Naručioca. Izvršilac ne izvještava o prodaji.
- Naručilac (samo onaj koji je rezident Bosne i Hercegovine) izvještava o prodaji i uvijek popunjava samo podatke o prodatoj količini i vrijednosti prodaje, a ne popunjava podatak o proizvedenoj količini. Naručilac koji nije resident Bosne i Hercegovine samim time nije ni obuhvaćen ovim istraživanjem i od njega se ne mogu prikupiti nikakvi podaci.

## **PUBLIKOVANJE PODATAKA**

Na nivou Bosne i Hercegovine za publikovanje su izabrani podaci o ostvarenom obimu industrijske proizvodnje i njenim tržišnim efektima (ostvorena prodaja po količini i vrijednosti), i to zasebno podaci o redovnoj tj. proizvodnji za vlastiti račun i proizvodnji na osnovu ugovora. Ostvorena prodaja obuhvata i one količine koje su u izvještajnom periodu prodate sa zaliha.

Za publikovanje je odabran i slijedeći zbir podataka o vlastitoj proizvodnji i podataka o proizvodnji na osnovu ugovora:

- Obim proizvodnje za vlastiti račun i proizvodnje na osnovu ugovora (podaci koje daje izvršilac),
- Vrijednost prodate proizvodnje za vlastiti račun i vrijednost naknade za proizvodnju na osnovu ugovora (podaci koje daje izvršilac). Ovaj zbir je vrlo pogodna varijabla za upoređivanje sa raspoloživim podacima o ukupnom ostvarenom prometu.

## VAŽNE NAPOMENE

### Klasifikacije i nomenklature

Za prikazivanje godišnjih rezultata o industrijskoj proizvodnji u Bosni i Hercegovini korišteni su nazivi i šifre djelatnosti iz klasifikacije djelatnosti KD BiH 2010, nazivi i šifre potkategorija iz klasifikacije proizvoda po djelatnostima KPPD BiH 2010 i nazivi i šifre proizvoda iz nomenklatura industrijskih proizvoda NIP BiH 2010.

U junu 2010. službeno je usvojena jedinstvena Klasifikacija djelatnosti Bosne i Hercegovine KD BiH 2010 koja je potpuno usaglašena sa NACE Rev.2. (Zakon o KD BiH 2010, Službeni glasnik Bosne i Hercegovine br. 100/08 i 32/10, kao i Odluka o KD BiH, Službeni glasnik Bosne i Hercegovine br. 47/10).

Nomenklatura industrijskih proizvoda - NIP BiH 2010 je zvanično objavljena u Službenom glasniku Bosne i Hercegovine Službeni Glasnik BiH, br. 12/11 od 15.02.2011. Od 2010. godine NIP BiH 2010 je obavezni standard za godišnje statističko istraživanje industrije, ali će se od 2012. morati primjenjivati, kao obavezni standard, u svim statističkim istraživanjima industrije i svim ostalim istraživanjima koja zahtijevaju prikupljanje, obradu i prikazivanje rezultata na osnovu podataka o industrijskom proizvodu.

NIP BiH 2010 obuhvata određene proizvode iz područja i oblasti klasifikacije djelatnosti koje nisu obuhvaćene originalnom EU PRODCOM listom iz 2010. godine, a to su:

- Oblast 05 – “Vađenje ugljena i lignita” i
- Oblast 06 – “Vađenje sirove nafte i prirodnog plina” u okviru područja B – “Vađenje ruda i kamena”
- Oblast 19 – “Proizvodnja koksa i rafiniranih naftnih proizvoda” u okviru područja C – “Prerađivačka industrija” (osim 19.10.30)
- Oblast 35 – “Proizvodnja i snabdijevanje električnom energijom, plinom, parom i klimatizacija” u okviru područja D “Proizvodnja i snabdijevanje električnom energijom, plinom, parom i klimatizacija”
- Oblast 38 – „Sakupljanje otpada, djelatnosti obrade i zbrinjavanja otpada; reciklaža materijala“ u okviru istoimenog područja E “Snabdijevanje vodom; uklanjanje otpadnih voda, upravljanje otpadom i djelatnosti sanacije okoliša”.

Podaci u ovom tematskom biltenu su prikazani saglasno PRODCOM listi 2011 (zahtjevi EU propisa) a razlike između NIP BiH 2010 i referentne PRODCOM liste 2011 dati su u tabeli u ANEKS II.

### Obuhvat istraživanja

PRODCOM propis definiše osnovni kriterij izbora obuhvata istraživanja: metod istraživanja mora biti takav da prikupljeni podaci iz jedinica posmatranja osiguraju pokrivenost ukupne proizvodnje  $\geq 90\%$  svakog razreda djelatnosti, po NACE Rev.2.

Na nivou BiH dogovoreno je da se ovaj kriterij realizuje kroz usaglašeni obuhvat preduzeća u entitetima i DB tako što će se u populaciju od interesa uključiti sva preduzeća i njihovi dijelovi koji zadovoljavaju uslov da je broj zaposlenih osoba  $\geq 10$  i ona preduzeća i njihovi dijelovi čiji je godišnji promet  $\geq 500.000$  KM izabrani na osnovu podataka statističkog poslovnog registra. Pri izboru populacije od interesa za prikupljanje podataka o industrijskoj proizvodnji u 2010. godini po prvi put je korišten statistički poslovni registar.

**Detalji o podacima**

Tematski bilten “Industrijska proizvodnja u Bosni i Hercegovini – 2010. godina, prethodni PRODCOM rezultati” sadrži uporedni pregled revidiranih zbirnih podataka za 2009, koji su preračunati i prikazani po NIP BiH 2010 i zbirnih podataka za 2010. godinu.

Također napominjemo da podaci za 2010. ne sadrže podatke o distribuciji i trgovini električnom energijom zbog neusaglašenog kvaliteta podataka.

**Ispravke NIP BiH 2010**

U toku implementacije NIP BiH 2010 u PRODCOM istraživanju uočeno je da u nomenklaturi nedostaju slijedeći proizvodi, a treba ih uključiti:

<b>Šifra</b>	<b>Mjerna jedinica</b>	<b>Proizvod</b>
10.51.55.60	kg	Surutka i modificirana surutka, tekuća u obliku pirea, nekoncentrirana ili koncentrirana ili zaslađena
35.23.10.10	1000 m <sup>3</sup>	Usluge trgovine plinovitih goriva kroz distribucijsku mrežu

Za slijedeći proizvod nije upisana mjerna jedinica: kom

<b>Šifra</b>	<b>Mjerna jedinica</b>	<b>Proizvod</b>
26.20.13.00	kom	Stolni personalni računari (PC)

Slijedeći proizvod se isključuje:

<b>Šifra</b>	<b>Mjerna jedinica</b>	<b>Proizvod</b>
11.07.11.10	l	Mineralne i gazirane vode, nezaslađene i bez dodatih ukusa

## INDUSTRIJSKA PROIZVODNJA I PRODAJA INDUSTRIJSKIH PROIZVODA U BOSNI I HERCEGOVINI U 2010 GODINI – PRETHODNI PRODCOM REZULTATI

Šifra	Naziv proizvoda i djelatnost	Vrsta proizvodnje	Mjerna jedinica	Proizvedena količina	Prodana količina	Vrijednost prodaje / naknade <sup>1)</sup> (u .000 KM)
<b>B</b>	<b>VAĐENJE RUDA I KAMENA</b>					
<b>05</b>	<b>VAĐENJE UGLJENA I LIGNITA</b>					
<b>05.2</b>	<b>Vađenje lignita</b>

## ANEKS I: PREGLED SA DIJAGRAMIMA

## INDUSTRIJSKA PROIZVODNJA U BOSNI I HERCEGOVINI U 2010. GODINI

## Prikupljanje i publikovanje podataka

Osnovni pokazatelji industrijske proizvodnje u Bosni i Hercegovini su kompilirani korištenjem podataka prikupljenih u oba entiteta (za Federaciju BiH podatke prikuplja Federalni Zavod za statistiku, a za Republiku Srpsku Republički zavod za statistiku Republike Srpske). U Distriktu Brčko podatke prikuplja ekspozitura Agencije za statistiku BiH.

U procesu prikupljanja podataka za 2010. godinu korištena je jedinstvena nomenklatura industrijskih proizvoda NIP BiH 2010 (zasnovana na PRODCOM listi Evropske Unije iz 2010. godine), koja je objavljena u Službenom glasniku Bosne i Hercegovine Službeni Glasnik BiH, br. 12/11 od 15.02.2011., i time uvedena kao obavezan standard u svim statističkim istraživanjima industrije i ostalim istraživanjima vezanim za nivo industrijskog proizvoda. Prikupljanje i obrada podataka zasnivaju se na jedinstvenom, usaglašenom metodološkom pristupu.

Obradeni podaci su publikovani na web stranici Agencije za statistiku BiH i u formi tematske godišnje publikacije (TB 05) i prikazuju rezultate industrijskih preduzeća u BiH i jedinica u sastavu drugih preduzeća koja se bave industrijskom proizvodnjom, i to po vrsti proizvodnje:

- **podaci o redovnoj proizvodnji** tj. proizvodnji roba i usluga za vlastiti račun pri čemu se koriste vlastite ili kupljene ulazne sirovine i materijali (oznaka:0),
- **podaci o proizvodnji na osnovu ugovora** tj. proizvodnji roba i usluga za račun naručioca pri čemu se koriste ulazne sirovine i materijali koje osigurava naručilac (oznaka:1),
- **podaci o ukupnoj proizvodnji** svakog proizvoda, koja može biti samo redovna (0), samo na osnovu ugovora (1) ili zbir ove dvije vrste proizvodnje (0+1). Ukupna proizvodnja se prikazuje po obimu: kao zbir redovne i proizvodnje na osnovu ugovora i po vrijednosti: kao zbir vrijednosti prodaje redovne proizvodnje i vrijednosti naknade za proizvodnju na osnovu ugovora.

Rezultati su dati za svaki pojedinačni proizvod (roba ili usluga) iz NIP BiH 2010 i grupisani po područjima, oblastima, granama i razredima klasifikacije djelatnosti Bosne i Hercegovine KD BiH i po potkategorijama klasifikacije proizvoda po proizvodima KPPD BiH 2010.

U publikaciji su osnovni rezultati prikazani kao podaci o ukupnom obimu proizvodnje i obimu i vrijednosti prodaje industrijskih proizvoda, kao i vrijednosti naknade za proizvodnju na osnovu ugovora.

Osnovni agregirani rezultati o industrijskoj proizvodnji u Bosni i Hercegovini u 2010. godini, struktura proizvodnje i promjene u odnosu na prethodnu godinu ilustrovani su kroz niz preglednih grafikona.

Ovi grafikoni se baziraju na godišnjim podacima za 2009. i 2010. godinu. Za svrhe upoređivanja izvršeno je pregrupisanje i preračunavanje podataka iz 2009. godine. Posebno ističemo da su i u 2010. godini isključeni podaci o distribuciji i trgovini električnom energijom zbog neusaglašenosti njihovog kvaliteta.

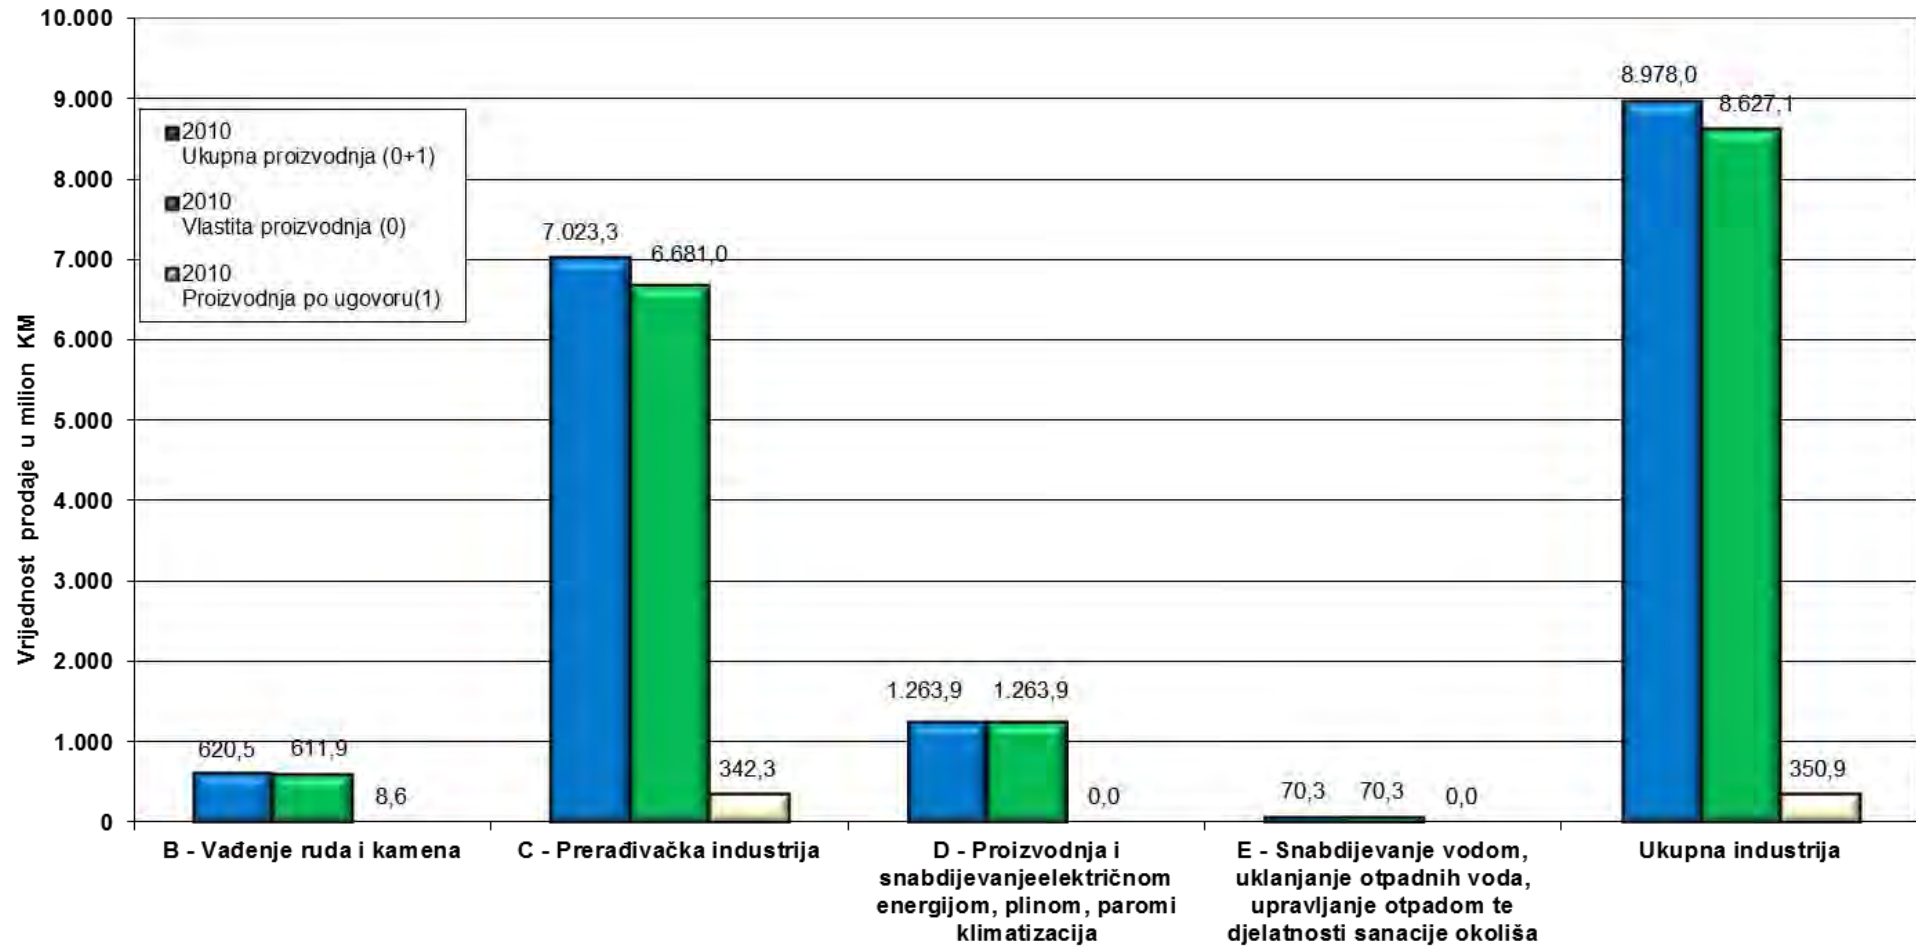

Zbog različitih mjernih jedinica moguće je agregirati i međusobno upoređivati samo vrijednosne pokazatelje. Za zbirni prikaz izabrali smo podatke o vrijednosti prodaje (podatak koji se direktno prikuplja od izvještajnih jedinica), i to za cjelokupnu industriju i područja djelatnosti i na tom je nivou napravljeno osnovno upoređivanje rezultata po vrstama proizvodnje.

Osnovni pokazatelji industrijske proizvodnje za 2010. godinu – TABELARNI prikazi

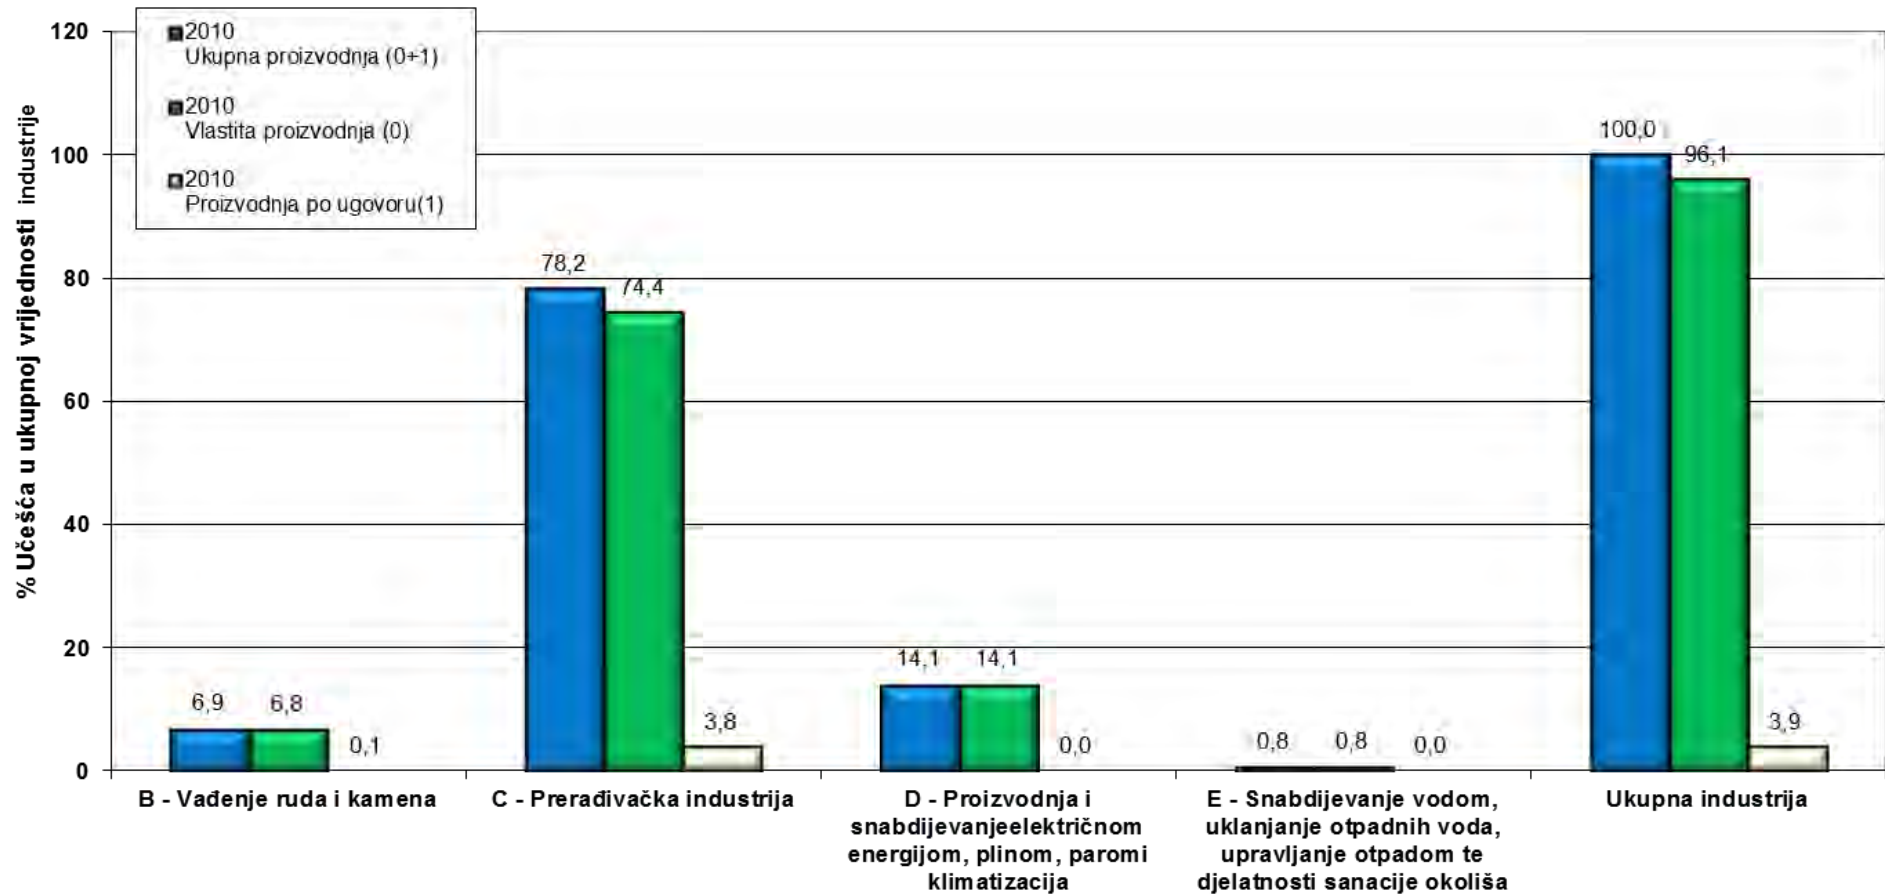

Tabela 1: Vrijednost prodaje industrijskih proizvoda u BiH za 2010.						
u milion KM						
Vrsta proizvodnje	Region	Područje				
		B	C	D	E	Ukupno
Vlastita proizvodnja (0) Vrijednost prodaje	BiH	611,9	6.681,0	1.263,9	70,3	<b>8.627,1</b>

## INTRODUCTION

Data on regular industrial production (on own account) in Bosnia and Herzegovina were published for the first time in the beginning of 2005, covering the production of the year 2003. From that point onward such results have been included in the publishing plan of the Agency for Statistics of Bosnia and Herzegovina, on regular basis.

Starting with annual data on 2005, the data on contract based industrial production have also been published on the regular basis, not only the data on the industrial production on own account (regular production).

The annual survey on industry in Bosnia and Herzegovina IND 21 for the year 2010 is oriented to the collection and processing of data at the level of product, while data collection related to the structure of production has been currently carried out separately, following standard EU requirements (SBS Regulation<sup>11)</sup>). The annual survey, at the product level, is fully harmonized between all official statistical institutions of Bosnia and Herzegovina, but it is compliant, to a great extent, with international, primarily European standards and regulations. The following main objectives were set upon annual survey on industry:

- data collection, processing and publishing of annual statistics on industrial production in BiH, covering the territories of both entities and their administrative units, as well as territory of District Brcko, focused on products specified in Nomenclature of Industrial Products of Bosnia and Herzegovina – NIP BiH 2010 (based on PRODCOM list 2010<sup>1)</sup>) - that means carrying out the annual PRODCOM survey on industrial production by products
- collection of data necessary to establish harmonized system of weights (level of macro product) to be used in compilation of monthly volume indicator of industrial production in Bosnia and Herzegovina, in each entity and in District Brcko, in accordance with European standards and regulations,
- dissemination of data on industrial production (PRODCOM results) to domestic and international users,

**PRODCOM survey** is oriented to the product and is dealing with direct data on volume of production and volume and value of sales of industrial production, at the detailed level of a single product, as it is specified in nomenclature of industrial products. The subject of the survey is industrial production, accomplished at the territory of Bosnia and Herzegovina, in the period of reporting year.

The publication is presenting, in a systematic way, the data collected through 2010 annual PRODCOM survey and gives information on volume of production, volume and value of sales of industrial products (goods and services) in Bosnia and Herzegovina, which are results of regular production (0) carried out in reporting unit (based on own or purchased raw materials), as well as production based on contract (1).

Data on industrial production in 2010 are collected using the Nomenclature of Industrial Products of Bosnia and Herzegovina – NIP BiH 2010, which was published in Official Gazette of Bosnia and Herzegovina, No. 12/11 dated 15. 02. 2011. Since 2010, NIP BiH 2010 is obligatory standard for annual statistical surveys in industry, but starting with 2012 it shall be implemented as obligatory standard for all statistical surveys in the field of industry and for all statistical activities that require collection, processing and presentation of results, based on industrial products. Direct comparison of PRODCOM data for 2010 with already published data from previous years could not be done without prior massive work on regrouping and recalculating historical data according to the new Nomenclature

---

<sup>11)</sup> Structural Business Statistics Regulations. i.e. SBS-R (Council Regulations No 58/97, 2700/98, 295/2008 i 250/2009 )

of Industrial Products. Special correspondence and tables and conversion coefficients are prepared and estimated for the purpose of product data regrouping and comparison between two nomenclatures.. This publication compares only aggregated data for 2009 and 2010 just because of large amount of work necessary to recalculate all historical data.

## METHODOLOGICAL EXPLANATIONS

### ORGANIZATION OF THE SURVEY

Agency for Statistics of Bosnia and Herzegovina (BHAS), Institute for Statistics of Federation of BiH (FZS) together with its cantonal offices, Institute for Statistics of Republika Srpska (RZSRS) together with its regional offices and Branch Office of the Agency for Statistics of Bosnia and Herzegovina - District Brcko (EDB) took part in the implementation of annual survey on industry.

BHAS, FZS and RZSRS had harmonized, in full coordination, the methodology of annual survey on industry for 2010 and jointly agreed upon the contents and the form of questionnaire and prepared instructions for filling it up. They also created special correspondence and conversion tables between old and new nomenclatures of industrial products and conversion coefficients for use in historical data regrouping (based on information and contacts with observation units and based on expert's estimates). As a standard practice FZS, RZSRS and EDB are keeping and updating their individual statistical business registers, which serve as main source in defining the coverage of statistical units for PRODCOM survey.

FZS, RZSRS and EDB organized the whole field work i.e. they printed and distributed questionnaires and all accompanying documents, necessary for survey to be carried out and data collected. FZS, RZSRS and EDB held all necessary trainings in different cantonal/regional and central statistical offices, and altogether with statisticians from local offices they organized direct visits to reporting units, whenever it was judged as important. All major difficulties they resolved in direct contact with reporting units.

Computer applications for data entry, checking, control and processing were developed in statistical institute of each Entity, reflecting the objectives of the annual survey on industry and structure and contents of the questionnaire.

Agency for Statistics of Bosnia and Herzegovina made the agreement with FZS and RZSRS upon the contents, type and form of data to be transmitted for further processing, and developed IT application for taking over, aggregation and compilation of PRODCOM results for the level of Bosnia and Herzegovina.

FZS, RZSRS and EDB collected completed questionnaires and performed all activities related to data entry, analysis and control. After appropriate checks and controls, the collected data were submitted to BHAS in required form.

FZS, RZSRS and EDB accomplished the first stage processing of collected PRODCOM data such that necessary information, in required form, was submitted to BHAS.

BHAS aggregated the data collected by FZS, RZSRS and EDB and prepared and published PRODCOM results for Bosnia and Herzegovina. Data for the level of Bosnia and Herzegovina were compiled from clarified, checked and processed data originated from entities' statistical institutes and statistical branch office of District Brcko.

### CONCEPTS AND DEFINITIONS

#### INDUSTRY

The term industry, as it is used in annual survey on industry IND-21, refers to the three sections of the classification of activities (according to NACE Rev.2):

B - MINING AND QUARRYING,

C - MANUFACTURING and

D - ELECTRICITY, GAS, STEAM AND CONDITIONING SUPPLY

E – WATER SUPPLY, SEWERAGE, WASTE MANAGEMENT AND REMEDIATION  
ACTIVITIES

Definition of industry is just the same, as the one used by EU. Nevertheless, some products that were excluded from PRODCOM list, following the changes in EU statistical standards, are still included in

NIP BiH, just because of their importance in BiH economy and because no other specific survey exists in BiH to enable collecting of such data. In such a way, it is possible to collect and adequately follow changes in production and structure of total industrial production in Bosnia and Herzegovina.

Concepts and definitions of all basic terms used in annual PRODCOM survey on industrial production (such as principal, secondary and ancillary activity, statistical units, product, goods, services, production on own account, contract processing i.e. outsourcing, etc.) are taken from the introduction to NACE Rev 2, from EU regulation on the statistical units for the observation and analysis of the production system in EU<sup>3)</sup>, from introduction to ISIC Rev. 4<sup>4)</sup> and from introduction to PRODCOM list 2010. Those definitions and concepts are harmonized with methodological frame of SNA 93/SNA 2008 and ESA 95<sup>5)</sup>.

All specific explanations, given in this chapter, are related only to the PRODCOM part of annual survey on industry, the results of which, those reflecting regular industrial production and contract based production are published in this publication.

## **STATISTICAL UNITS**

Statistical units in business statistics are autonomous institutions and parts thereof that are contributing in performing the same economic activity. They are undertaking economic transactions of goods and services. In producing goods and services that could be sold, given to other parties without any compensation, or used for further processing and production, statistical units are utilizing their own labour force (manpower). The important attribute of statistical unit is its autonomy in making financial obligations and its right to be owner of tangible and intangible assets.

**Observation units** are those statistical units that statistics is compiled for, with the aim of monitoring and following up their characteristics and features. The basic limitation set upon statistical unit of observation is its autonomy in regard to financing and production process, what results in two types of observation units:

1. Units that are completely autonomous in regard to financing and production process (enterprise) and
2. Units which are autonomous only in regard to production process (enterprise units, i.e. parts of enterprise, so called establishments). Autonomy in decision-making means that such enterprise units are keeping administrative records on all basic characteristics of the process.

**Reporting units** are those statistical units that are required to provide data. They could be observation units that are subject of interest, but also they could be completely different units.

Reporting units of the PRODCOM part of annual survey on industry are legal units i.e. enterprises that are, in the register of business subjects of FZS, RZSRS and EDB, classified in the sections C, D and E (industry), as well as those enterprises that are not classified in industry sections, but have their business parts performing industrial activities.

Observation units of the PRODCOM part of annual survey on industry are enterprises and their parts i.e. enterprise units (establishments) that are engaged in industrial activities. Results of the industrial activity are goods and services, i.e. products as they are defined in nomenclature of industrial products.

---

<sup>3)</sup> Council Regulation (EEC) No 696/93 on the statistical units for observation and analyzing within European Community

<sup>4)</sup> ISIC Rev 4 - International Standard Industrial Classification

<sup>5)</sup> System of National Accounts 1993 - SNA 93 and SNA 2008 and European System of National Accounts 1995  
ESA 95 (EEC regulation No 2223/96), harmonized with SNA 93.

**Enterprise** is the smallest combination of legal units that makes an organisational unit producing goods or services, which has a certain degree of autonomy in decision-making, especially for the allocation of its current resources. An enterprise carries out one or more activities at one or more locations.

**Local unit** - is an enterprise or part thereof (e. g. a workshop, factory, warehouse, office, mine or depot) situated in a geographically identified place. At or from this place, economic activity is carried out for which — save for certain exceptions — one or more persons work (even if only part time) for one and the same enterprise.

Activity of statistical unit is determined at the class level of Classification of Activities of Bosnia and Herzegovina KD BiH 2010.

## **PRODUCTS**

**Product** - is the outcome of economic activity, which is defined as separate item in the nomenclature of industrial products. It is the generic term applied to goods, that have physical characteristics, and to services.

**Goods** - are physical objects for which a demand exists, over which ownership rights can be established and whose ownership can be transferred from one institutional unit to another by engaging in transactions on markets. They are in demand because they may be used to satisfy the needs or wants of households or the community or used to produce other goods or services. The production and exchange of goods are quite separate activities. Some goods may never be exchanged while others may be bought and sold numerous times. The separation of the production of a good from its subsequent sale or resale is an economically significant characteristic of a good that is not shared by a service.

**Commodity** – A commodity is a transportable good that may be exchanged. It may be one of a run from a production line, a unique item (artwork) or the material medium for a service (software diskette). This is the concept used for customs classifications.

**Semi-finished products** - are those products that have undergone the phase of processing but require further processing before they are ready for use. They may be sold to other manufacturers for further processing, and one of the typical examples includes rough metal castings sold for finishing elsewhere.

**Finished product** - is each product for which processing has been completed i.e. the product that has undergone some processing and reached such a degree of transformation or treatment that it became a new product and should be assigned specific code and description listed in the nomenclature of industrial products. Such definition of finished product also covers all finishing works related to the specific product, such as cleaning, packing, quality testing, sorting etc. The volume of damaged and incorrect products (wastes) is not to be considered as finished products.

**Intermediate product** - is the product, processed in such a degree that it became a new product which is specified in nomenclature of industrial product produced by enterprise or one of its parts (establishments). Such product is used in the same enterprise or other part of the enterprise, for further processing such to become new product (or to be assembled in such a way to create new product), as defined in nomenclature of industrial products. Goods and product purchased from third parties to be resold, in the same shape, form and quality as purchased, are not considered as intermediate products. Also, product used for investment in fixed assets of the enterprise or parts of the enterprise are not considered as intermediate products.

**Unfinished Product** – is the product that has not reached required phase in processing or treatment, as it is specified in NIP BiH 2010, so it is not subject of PRODCOM survey.

**Services** - are not separate entities i.e. outputs over which ownership rights can be established. They cannot be traded (they can be exchanged) separately from their production. Services are heterogeneous outputs produced to order and typically consist of changes in the conditions of the consuming units realized by the activities of producers at the demand of the consumers. By the time their production is completed they must have been provided to the consumers. The production of services must be confined to activities that are capable of being carried out by one unit for the benefit of another.

## **PRODUCTION**

**Production** - is an activity resulting in a product. The term is used with reference to the all-whole range of economic activities. In the domain of industry the production is the process resulting in industrial products, as defined in nomenclature NIP BiH 2010, referring to goods and services.

Production is the procedure that transforms raw materials, semi-finished products and other similar inputs. It is typical for production process that inputs, after the process is over, are changed by form, nature, composition and other features and the result is a new product.

Industrial statistics use more precise terms in defining production: **regular production**, **service production** (contract processing - **outsourcing**), **total production**, **industrial services** (treatment, repairs and maintenance etc.). Differentiation is made depending on main characteristics of the activity which is done and depending on ownership of raw materials and other inputs of the process, and also depending on behalf of whom the production or services are performed.

### **Regular production i.e. production on own account**

This is the production accomplished by the observation unit (enterprise/local unit) on own account, utilizing the purchased or its own raw materials. The observation unit is the owner of a finished product and sells its own products in the market and reports all volume and value data on production. It should be emphasized that industrial services, included in NIP BiH 2010 as special products (treatment on own account, repairs and maintenance) are defined in the same way as all other industrial products.

### **Contract based production i.e. contract processing – (Outsourcing)**

**Outsourcing** - is contractual agreement according to which the Principal requires the Contractor to carry out specific tasks that are in the domain of Principal activity, such as parts of a production process or even the full production process. In any contract processing arrangement, the principal and the contractor must be different statistical units; contract processing between different plants belonging to the same enterprises is not possible.

Sometimes, the term "**contract processing**" is used as well.

Contractor, based on contract agreement with principal, produces specific product or provides specific industrial services.

The phenomenon of **Outsourcing** i.e. transfer/allocate the production to another unit is a very important issue that should be properly used in determining the scope of industrial statistics and carrying out industrial surveys.– This is the most frequent and essentially a boundary between manufacturing and wholesaling.

**Principal** is the unit that enters into a contractual relationship with another unit (**Contractor**) for that other unit to carry out specific tasks, such as parts of a production process or even the full production process.

**Contractor** is the unit that carries out specific tasks, such as parts of a production process or even the full production process, on a contractual relationship with a Principal. The term sub-contractor is also used.

## **DATA**

Annual PRODCOM survey on industrial production (PRODCOM survey) collects data on total production finished, internal consumption (production spent for further processing in the same enterprise), stocks and sales of individual products, as defined in Nomenclature of industrial products NIP BiH 2010, updated by actual PRODCOM list for surveyed year. In such a way, for some specific product, data on production are presented as the source side and data on internal consumption, sales and final stocks as expenditure side in the balance of available quantities. Data are collected for two different types of production:

- Regular production (production on own account)
- Contract based production (outsourcing)

PRODCOM regulation defines four types of PRODCOM results (**S**, **T**, **V** and **I**) that should be produced (in accordance with currently valid PRODCOM list) such to enable international comparability:

**Total Production – T** is the actual quantity of the single product, defined by the Nomenclature of industrial products, produced during the reference year in the observation unit, irrespective of whether sold to the third parties in the country or abroad (exports), put into stock or used for further processing (intermediate products), or combined.

Total production should be reported by volume (for type **T** headings) i.e. as physical quantity expressed in specified measuring unit and means only those products which:

- are processed into another product, or
- are fitted into another product, or
- are put in stock.

This also includes any production by the enterprise that is incorporated into the manufacture of other product.

In addition, the sold production by value and volume should be reported for total production.

**Production Sold – S** means the volume of products sold (invoiced) and value of products sold (invoiced) during the survey period no matter when they were produced.

Production sold should be reported by value and volume (for type **S** headings) expressed in specified measuring unit. In some cases, no volume unit is defined in the PRODCOM list for a heading. In these cases NIP BiH 2010 specifies measuring unit for each heading and measuring unit is modelled according to NIP BiH 2005.

**Value of Production Sold** should be calculated on the basis of the ex-works selling price obtained during the reporting period. It always includes packaging costs, even if they are charged separately. However, the following are not included:

- any turnover tax and consumer tax charged
- separately charged freight costs
- any discounts granted to customers

**Industrial services – I** cover treatment, repairs and maintenance, and assembly work (mounting, installation and assembling) that is done by enterprise/local unit and invoiced separately. Industrial services should be reported separately for each specific type of service by the value of the service, i.e. the fee paid for it. In this case, specific type of service is the "PRODCOM product" listed in NIP BiH 2010.

**Total production in volume – V** refers to physical products (goods) and shows the actual quantity of the single product produced during the reference year in the observation unit, expressed in specified measuring unit. Sold production is not reported.

Data collected in Bosnia and Herzegovina using PRODCOM survey enables compilation of each, above-mentioned types of results.

**Contract processing i.e. “outsourcing”** (production of goods based on contract and provision of industrial services based on contract) is very important type of industrial production that occurs rather frequently in BiH and this is the reason why it is given special attention in PRODCOM survey, being presented in this publication apart from regular production (production on own account).

Data on contract processing are reported by enterprise/local unit that carries out this type of production (this is observation unit), in particular the following data: volume of contract production and fee paid for production service (amount paid by principal for the service). Principal (if resident of BiH) is reporting on sold production (volume and value).

**Unit Value of the Product** - represents an average value of each PRODCOM product, not a real average price of the product. This is not data that is collected directly, but the value gotten by dividing the sold value of the product (sum of data from all production units) by the total volume of the product expressed in KM.

## DATA COLLECTION - REPORTING

According to the requirements of PRODCOM Regulation, a reporting unit gives, for the production on own account, all information asked in questionnaire.

When contract processing i.e. “outsourcing” is reported, there are two types of reporting units: Principal and Contractor.

- Contractor should report on production (that it is really doing) giving information only on production volume and on the fee received from Principal for production service. Contractor should not report on sales.
- Principal (only this one that is resident of Bosnia and Herzegovina) should report only on sales giving information on volume and value of production sold. Principal should not report on volume of production. Principal that is not resident of Bosnia and Herzegovina is not covered by PRODCOM survey and consequently no data could be collected from such unit.

## DATA PUBLISHING

For the level of Bosnia and Herzegovina, the following results are selected for publishing: data on volume of industrial production finished, as well as data on market effect of such a production i.e. production sold, by volume and by value. Each of the results is presented by two types of production separately: production on own account. The production sold comprises also sales of the stocks done during the reporting period.

Also, the following sum of data on production on own account and data on contract processing is selected for publishing:

- Volume of production on own account and volume of contract based production (data given by Contractor),

- Value of sold production on own account and value of fee paid for contract based production (data given by Contractor). This sum is very appropriate variable to compare with available data on total turnover.

## **IMPORTANT NOTES**

### **Classifications and nomenclatures**

For the purpose of presenting the results on industrial production in Bosnia and Herzegovina, the activity headings and codes are taken from the Classification of Economic Activities - KD BiH 2010, the subcategory headings and codes are taken from the Classification of Products by Activity - KPPD BiH 2010 and the product headings and codes are taken from the Nomenclature of Industrial Products NIP BiH 2010.

In June 2010, the state level Classification of Economic Activities of Bosnia and Herzegovina KD BiH 2010, which is fully harmonized with NACE Rev. 2., was officially approved, (Law on KD BiH 2010, Official Gazette of Bosnia and Herzegovina, No. 100/08 and No. 32/10, as well as Decision on KD BiH 2010, Official Gazette of Bosnia and Herzegovina, No. 47/10).

Nomenclature of industrial products of Bosnia and Herzegovina – NIP BiH 2010, was officially published in Official Gazette of Bosnia and Herzegovina, No. 12/11 dated 15. 02. 2011. Since 2010, NIP BiH 2010 is obligatory standard for annual statistical surveys in industry, but starting with 2012 it shall be implemented as obligatory standard for all statistical surveys in the field of industry and for all statistical activities that require collection, processing and presentation of results, based on industrial products.

NIP BiH 2010 comprises some products that belong to the activity classification sections and divisions that are not included in the original EU PRODCOM list 2010, as follows:

- Division 05 – “Mining of coal and lignite” and
- Division 06 – “Extraction of crude petroleum and natural gas” within the Section B – “Mining and quarrying”
- Division 19 – “Manufacture of coke and refined petroleum products” within the Section C – “Manufacturing” (excluding subcategory 19.10.30 of KPPD BiH 2010)
- Division 35 – “Electricity, gas, steam and air conditioning supply” within the Section – D “Electricity, gas, steam and air conditioning supply”
- Division 38 – “Waste collection, treatment and disposal activities; materials recovery”, within the Section – E “Water supply; sewerage, waste management and remediation activities”.

The data presented in this thematic bulletin are based on PRODCOM list 2011 (EU Regulation requirements); the differences between NIP BiH 2010 and relevant PRODCOM list 2011 are given in Annex 2.

### **Survey population**

PRODCOM Regulation defines the main criterion for in selection of survey population: “survey methods shall be designed to enable the collection of data from observation units representing at least 90% of national production per NACE Rev. 2 class”.

It was agreed, at the level of BiH, that the aforementioned criteria will be implemented through harmonized coverage of enterprises in the entities and District Brcko in such a way that the population of interest will include all the enterprises and their parts having a number of employees  $\geq 10$  and additionally those enterprises and their parts with annual turnover  $\geq 500.000$  KM. For the selection of

population of interest for data collection on industrial production in Bosnia and Herzegovina for 2010, the Statistical Business Register was used for the first time.

**Data details**

Thematic bulletin “Industrial Production in Bosnia and Herzegovina – 2010, the first release of PRODCOM results” comprises a comparable overview of revised summary results for the 2009, recalculated and presented in NIP 2011 and overview of results for 2010.

Please also note, that data on distribution and trade of electrical energy for 2010 and for the previous year are excluded, as the quality of the data is quite unequal.

**NIP BiH 2010 corrections**

While implementing NIP BiH 2010 within PRODCOM survey, it was noticed that the following products were omitted, by error, and should be added:

<b>Code</b>	<b>Measuring Unit</b>	<b>Product</b>
10515560	kg	Whey and modified whey in powder, granules or other solid forms, whether or not concentrated or containing added sweetening matter
35231010	1000 m <sup>3</sup>	Trade services of gaseous fuels through the distribution network

Measuring unit “p/st” is missing for the following product:

<b>Code</b>	<b>Measuring Unit</b>	<b>Product</b>
26.20.13.00	p/st	Desk top PCs

The following product should be deleted:

<b>Code</b>	<b>Measuring Unit</b>	<b>Product</b>
11.07.11.10	l	Mineral waters and aerated waters, not sweetened nor flavoured

## ANNEX I: OVERVIEW - GRAPHS

### INDUSTRIAL PRODUCTION IN BOSNIA AND HERZEGOVINA 2010

#### Data collection and publishing

Basic statistics on industrial production in Bosnia and Herzegovina have been compiled using data collected in both entities (for Federation of Bosnia and Herzegovina data were collected by the Institute for Statistics of FBiH – FIS, and the Institute for Statistics of Republika Srpska – RSIS collected data for Republika Srpska) and in Brcko District (data collected by District Brcko Branch Office of Agency for Statistics of Bosnia and Herzegovina – EDB).

In the process of data collection and data processing for 2010, the single Nomenclature of Industrial Products NIP BiH 2010 was used (based on EU PRODCOM list from 2010). Nomenclature of Industrial Products of Bosnia and Herzegovina - NIP BiH 2010 - was published in Official Gazette of Bosnia and Herzegovina, No. 12/11 dated 15. 02. 2011 and it was introduced as obligatory standard for all statistical surveys in industry and for all other statistical surveys and activities that require collection, processing and presentation of results, based on industrial products. Fully harmonized and consolidated methodological approach was applied in all data collecting and data processing activities.

Compiled PRODCOM statistics on industrial production in BiH are published in electronic form on the website of the Agency for Statistics of Bosnia and Herzegovina and also hard copy publication (annual thematic bulletin - TB 05) showing the production results of industrial enterprises in BiH (as well as business unit (establishments) of non-industrial enterprises that are engaged in industrial activities. Results are distinguished by type of production:

**Data on production on own account** i.e. the production accomplished by the statistical unit on own account, utilizing the purchased or its own raw materials (type: 0),

**Data on contract processing** i.e. on service processing in industry that takes place when business subject, based on contract agreement, utilizes material supplied free of charge by the principal (unit that orders the production) and produces or processes certain product defined by the nomenclature of industrial products. (Type: 1),

**Data on total production** of each PRODCOM product that could be only production on own account (0), only contract processing (1) or a sum of the two (type: 0+1). Total production is presented by volume sum: own account production volume and contract processing volume and presented by value sum: own account production sold and fee received for contract processing.

Results are presented for each single product (goods or service) from NIP BiH 2010 and grouped by sections, divisions, groups and classes of KD BiH classification of activity and by subcategories of KPPD BiH 2010 classification of products by activity.

Main aggregated results, structure of the production and comparison of 2010 data with data of previous year are illustrated in a set of overview graphs.

The overview graphs are prepared based on annual data for the period 2009 to 2010. Historical data on 2009 were regrouped and recalculated for the purpose of data comparison. It is important to note that data on distribution and trading of electrical energy are excluded because of unequal quality of the data.

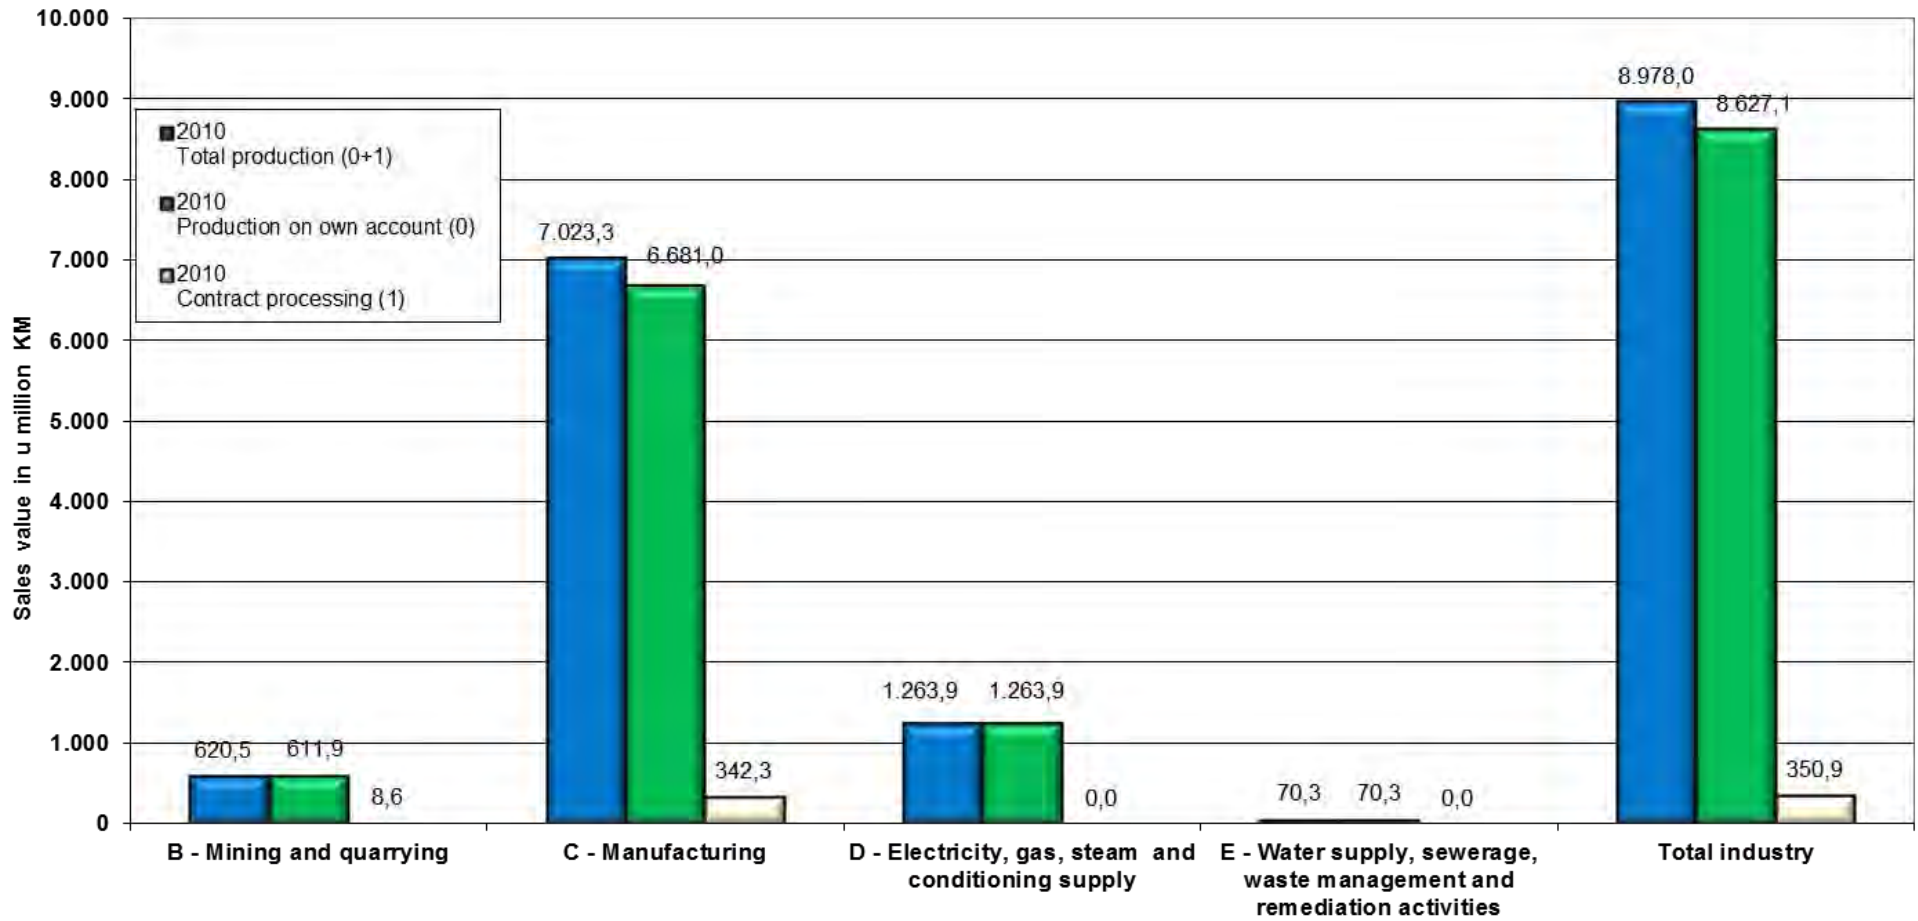

Because of different measuring unit used for PRODCOM product, it has only been possible to aggregate and compare value data on sales or production. We decided to compare sales data in overview presentation because the data were directly collected from statistical units.

**MAIN AGREGATED RESULTS – OVERVIEW TABLES**

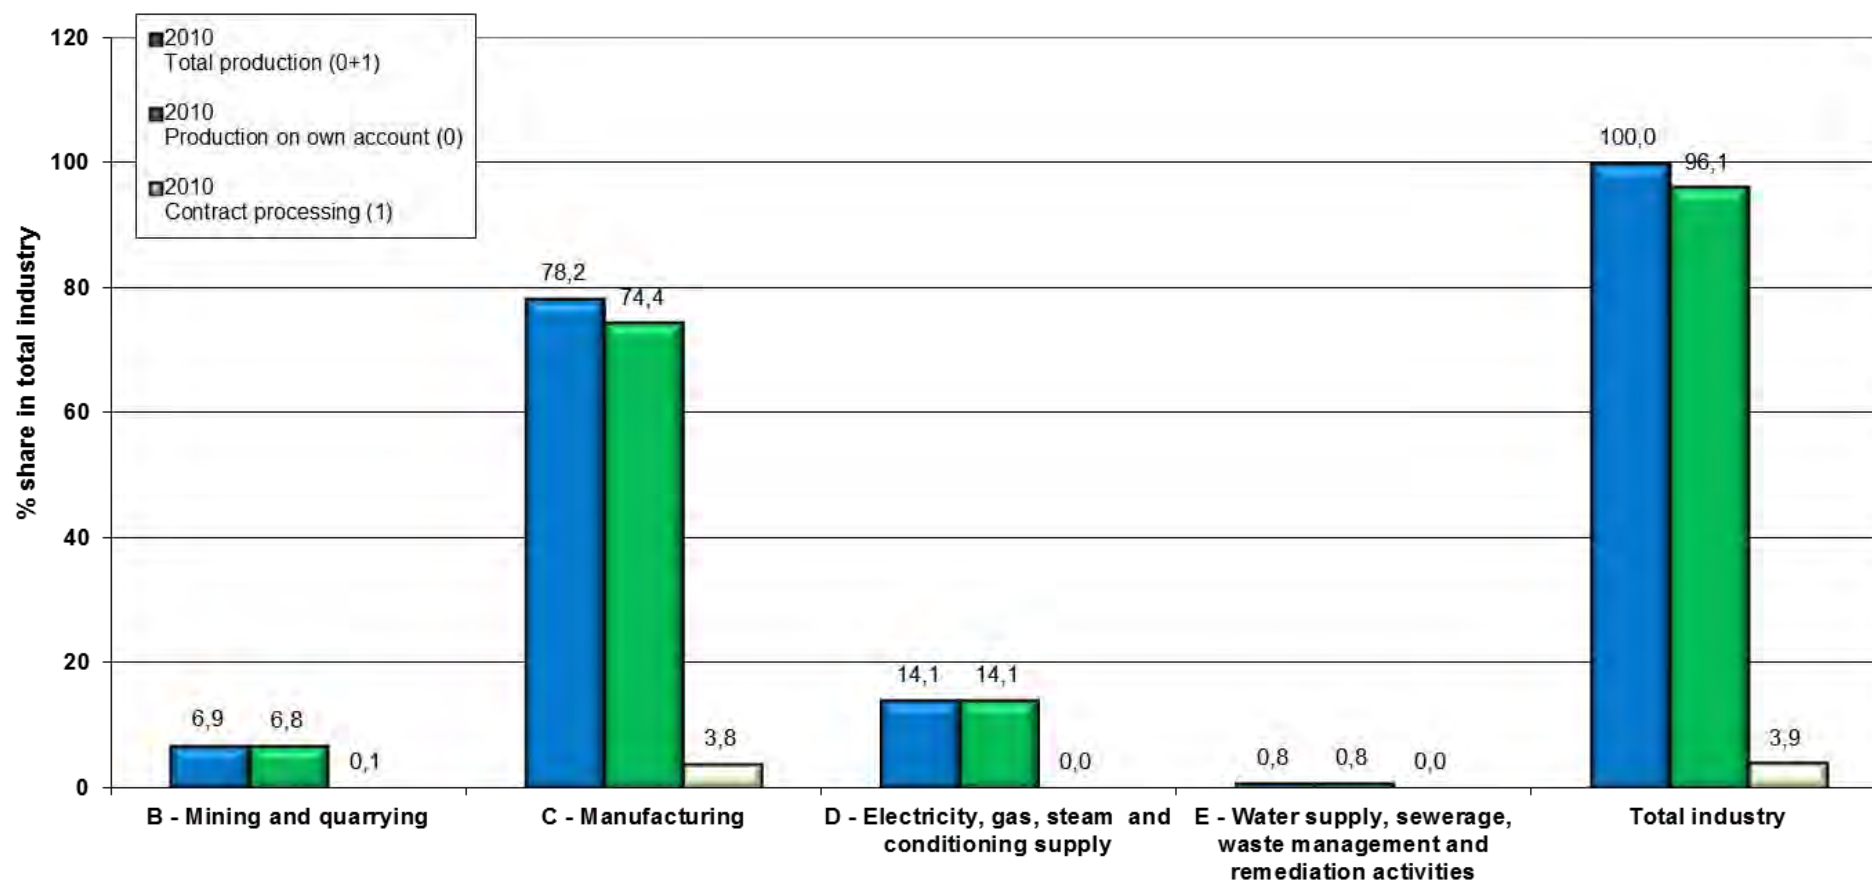

Table 1: Sales Value of Industrial Production in BiH - 2010						
in million KM						
Type of Production	Region	Područje				
		B	C	D	E	Ukupno
