Zasijane oranične površine u jesenjoj i proljetnoj sjetvi u Bosni i Hercegovini 2013/2014.

Sown arable areas in Autumn and Spring in Bosnia and Herzegovina 2013/2014

METODOLOŠKA OBJAŠNJENJA

Izvori i metode prikupljanja

Podaci o zasijanim površinama dobijeni su agregiranjem podataka dobivenih redovitim statističkim istraživanjima u entitetskim zavodima za statistiku i Podružnici Brčko. Podaci za gospodarstva individualnih proizvođača se dobivaju procjenom. Procjenu vrše stručne osobe za poljoprivredu u općinama.

Definicije

Poljoprivredna površina je zemljišna površina koja se koristi za poljoprivrednu proizvodnju. Poljoprivrednu površinu čine: obradiva površina, pašnjaci, ribnjaci, trstici i bare.

Obradiva površina je zemljišna površina na kojoj se gaje ratarski i povrtni usjevi, višegodišnji zasadi i trave i na kojima se vrši obrada, kosidba i drugi poljoprivredni radovi i po pravilu ubiru prinosi svake godine. Obradivu površinu čine: oranice i vrtovi, voćnjaci, vinogradi i livade.

Oranična površina je zemljišna površina na kojoj se obavlja ratarska proizvodnja. Na njoj se po utvrđenom redu (plodoređu) siju ratarski usjevi: žita, industrijsko bilje, povrtno bilje i stočno krmno bilje. U oranične površine se uračunavaju i površine koje su «radi odmora» ostale neobrađene. Pored toga, oranicama se smatraju i površine pod loznicim i voćnim rasadnicima, kao djetelišta i lucerišta.

NOTES ON METHODOLOGY

Sources and collection methods

Data on sown area are aggregated from the Regular statistical surveys conducted by the Statistical Institutes at the level of Entities and Brcko District. The data on Individual Producer's Farms are estimated. These estimations were made by the Experts from the field of Agriculture at the Municipality level.

Definitions

Agricultural area are land areas utilized for agricultural production. Agricultural area consists of: cultivable areas, pastures, fish/ponds, reedtracts and ponds.

The concept **cultivable area** covers land area on which farm crops and vegetables long/term plantings and grasses are grown, and on which the following works are performed cultivation, mowing and other agricultural works and as rule, the yields are gathered every year. Cultivable area includes: arable land and gardens, orchards, vineyards and meadows.

Arable area is land area generally under temporary crops. These areas are sown in rotation with the following crops: cereals, industrial crops, vegetable crops and fodder crops. Arable area also includes land temporarily fallow. Furthermore, arable lands are areas under vine and fruit tree nurseries, areas under floweras and areas under clover and lucerne.
