## Metodološka objašnjenja

Podaci o prodaji poljoprivrednih proizvoda na pijacama dobijeni su agregiranjem podataka na osnovu uporedivih statističkih istraživanja koja provode entitetski zavodi za statistiku i Podružnica Brčko (Kvartalni statistički izvještaj o prometu poljoprivrednih proizvoda na pijacama – TRG 13).

Podatke dostavljaju poslovni subjekti koji pružaju usluge prodajnog prostora pijace. Obuhvataju se samo količine proizvoda koje na pijacu iznose i prodaju individualni poljoprivredni proizvođači.

Ovim izvještajem prikupljaju se podaci o količinama i vrijednostima prodatih poljoprivrednih proizvoda.

## Notes on methodology

Data on sale of agricultural products are results of aggregation of comparable data from regular statistical surveys conducted by the two statistical offices on Entity level and by Bureau in Brcko District (the Quarterly report on the turnover of agricultural products on market places – TRG 13).

Data are given by legal entities that give services for using selling area. These data cover only quantity of products from individual agricultural producers.

The report collects data on the volume and value of sold agricultural products.
