## STATISTIKA PREVOZA I SKLADIŠTENJA

### Transportation and Storage Statistics

#### Indeksi prometa u prevoznim i skladišnim djelatnostima u BiH, IV kvartal 2014.

#### Turnover indices for transportation and storage activities in BiH, IV quarter of 2014

U četvrtom kvartalu 2014. godine ukupan promet uslužnih djelatnosti prevoza i skladištenja manji je za 4,2% od prometa ostvarenog u trećem kvartalu 2014. Najveći pad ostvarenog prometa zabilježen je u oblasti vazdušnog prevoza za 57,0%, dok je u oblasti skladištenje i pomoćne djelatnosti u prevozu pad iznosio 6,6% u odnosu na prethodni kvartal.

Najveće učešće u prometu uslužnih djelatnosti prevoza i skladištenja u četvrtom kvartalu 2014. godine ostvareno je u oblasti kopnenog prevoza i cjevovodnog transporta (83,3%), potom slijede oblasti skladištenje i pomoćne djelatnosti u prevozu (15,8%), te vazdušni i vodeni prevoz sa učešćem od 0,8% i 0,1% respektivno.

U poređenju sa istim periodom prethodne godine u četvrtom kvartalu 2014. godine zabilježen je rast ostvarenog prometa uslužnih djelatnosti prevoza i skladištenja za 9,8%. Najveći rast prometa ostvaren je u oblasti vazdušnog prevoza za 121,7%, dok je u oblasti skladištenja i pomoćnih djelatnosti u prevozu zabilježen rast od 55,1%.

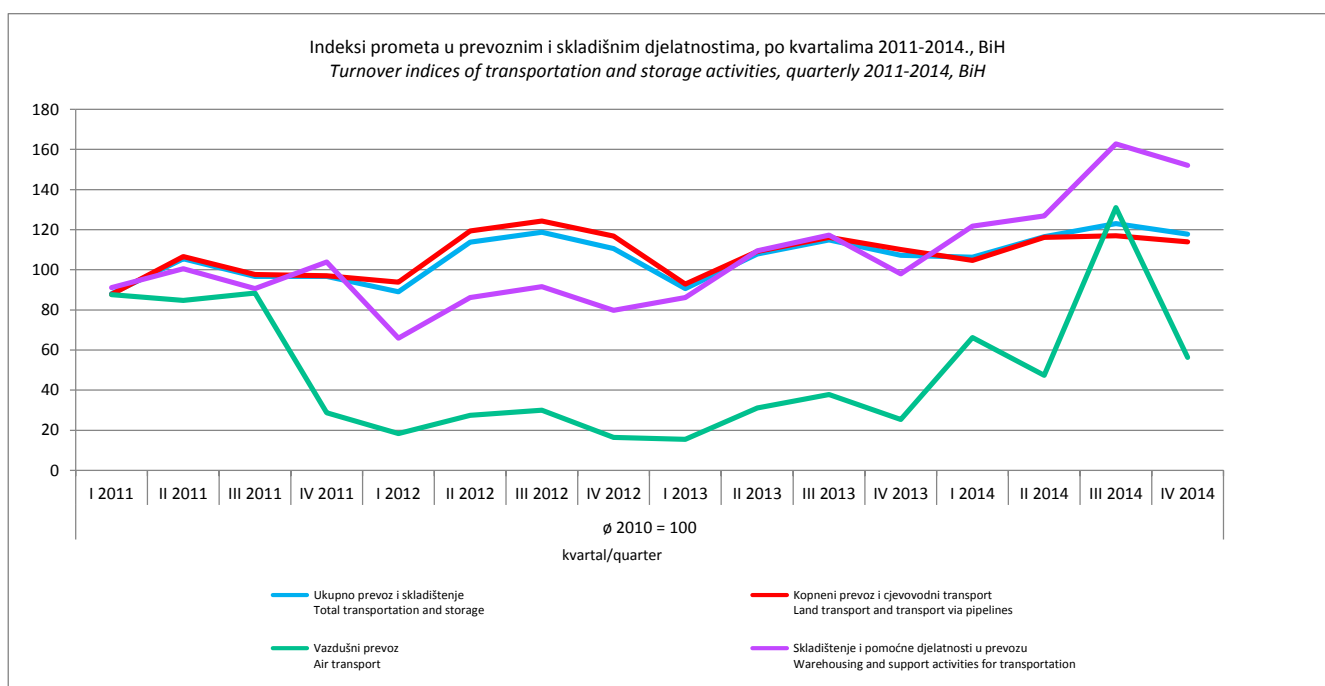

U periodu januar - decembar 2014. ukupan promet uslužnih djelatnosti prevoza i skladištenja u BiH veći je za 10,2% u odnosu na ukupan promet ostvaren u 2013. godini.

In the fourth quarter of 2014, the realized turnover from the service activities of transportation and storage decreased by 4.2% compared to the third quarter of 2014. The greatest decrease in turnover was recorded in Air transport division by 57.0%, followed by with decrease of Warehousing and support activities for transportation division by 6.6% in comparison to the previous quarter.

The greatest share of turnover in the fourth quarter of 2014 was in Land transport and transport via pipelines division (83.3%), followed by Warehousing and support activities for transportation (15.8%), Air and Water transport divisions (0.8% and 0.1% respectively).

In comparison with same period of previous year in the fourth quarter of 2014, the realized turnover from the service activities of transportation and storage increased by 9.8%. The greatest increase of turnover was recorded in Air transport activities by 121.7%, while increase in amount of 55.1% was recorded in Warehousing and support activities for transportation.

In the period January - December 2014 the realised turnover from the service activities of transportation and storage in BiH increased by 10.2% as compared to the same period of 2013.

# METODOLOŠKA OBJAŠNJENJA

## Izvor podataka

Podaci o ostvarenom prometu u uslužnim djelatnostima prevoza i skladištenja u BiH prikupljeni su kroz kvartalno statističko istraživanje prevoza i skladištenja (obrazac K KPS TRANS 01). Indeksi prometa u prevoznim i skladišnim djelatnostima agregirani su za nivo BiH na osnovu podataka koje su prikupili i obradili entitetski zavodi za statistiku FBiH i RS, te podružnica Agencije za statistiku BiH u Brčko distriktu.

Osnovni cilj istraživanja je praćenje dinamike kretanja ostvarenog prometa u uslužnim djelatnostima prevoza i skladištenja.

Ovo istraživanje je dio sveobuhvatnog kvartalnog statističkog istraživanja koje se sukcesivno razvija pod jedinstvenim metodološkim okvirom za sve djelatnosti poslovne ekonomije u skladu sa dokumentom "Metodološki okvir za razvoj kratkoročnih poslovnih statistika u BiH".

## Obuhvat i uporedivost

Podaci o uslužnim djelatnostima prevoza i skladištenja u BiH prikupljaju se za pravne subjekte koji su u Statističkom poslovnom registru BiH razvrstani prema pretežnoj djelatnosti u području H - Prevoz i skladištenje, nije uključena oblast 53 - poštanske i kurirske usluge (KD BiH 2010).

Istraživanje je provedeno kombinovanom metodom punog obuhvata i uzorka izabranih pravnih subjekata. Cjelokupno područje Bosne i Hercegovine je obuhvaćeno istraživanjem. Djelatnost preduzetnika koji se bave prevozom i skladištenjem nije obuhvaćena ovim istraživanjem.

## Metoda izračunavanja indeksa

Za izračunavanje Indeksa prometa u prevoznim i skladišnim djelatnostima (bazna godina 2010.), korišteni su podaci o vrijednosti ostvarenog prometa u uslužnim djelatnostima prevoza i skladištenja, što je u skladu sa Metodologijom za kratkoročne poslovne statistike Eurostat-a i regulativom za kratkoročne poslovne statistike (EC 1165/98, Aneks D).

Indeksi prometa u prevoznim i skladišnim djelatnostima u ovom saopćenju prikazuju se kao izvorni- sezonski i kalendarski neprilagođeni indeksi.

## Definicije

**Ostvareni promet** uključuje fakturisane iznose tokom referentnog perioda od strane izvještajne jedinice, i to odgovara tržišnim prodajama dobara i usluga ponuđenih trećim osobama. Ostvareni promet, takođe, uključuje sve druge troškove (transport, pakovanje itd.) prosljeđene na kupca, čak i ako su ovi troškovi posebno iskazani u fakturama. Ostvareni promet isključuje porez na dodanu vrijednost (PDV) i ostale odbitne poreze, direktno povezane s prometom, sve carine i poreze na dobra i usluge fakturisane od strane jedinice.

Umanjenja cijena, rabati i diskonti kao i vrijednost povratne ambalaže moraju se oduzeti iz ove stavke. Umanjenja cijena, rabati i bonusi kasnije priznati klijentima, na primjer na kraju godine, ne uzimaju se u obzir.

Prihodi koji su u računima preduzeća klasifikovani kao drugi operativni prihodi, finansijski dohodak i vanredni dohoci i prihodi na računima preduzeća su isključeni iz ostvarenog prometa

# NOTES OF METHODOLOGY

## Data source

Data on the turnover in the service activities of transportation and storage in BiH are collected through quarterly statistical survey of transportation and storage (Form K KPS TRANS 01). Turnover indices for transportation and storage activities are aggregated for the level of BiH on the basis of data collected and processed by entity offices, Federal Office of Statistics of FBiH and RS Institute of Statistics as well as branch office of Agency for Statistics of BiH in Brcko District.

The main purpose of the survey is the measuring of realised turnover in service activities of transportation and storage.

The survey is part of a comprehensive quarterly statistical survey which is successively developed under unified methodological framework for all activities of the business economy in accordance with the "Methodological framework for the development of short-term business statistics in BiH".

## Coverage and comparability

Quarterly reports on the service activities of transportation and storage in BiH are collected for the legal entities which are registered by the main activity in the section H - Transportation and storage (excluding division 53 - Postal and courier services (KD BiH 2010) in the Statistical Business Register of Bosnia and Herzegovina.

This survey was conducted by using combined methods of full coverage and sample of selected legal entities. Whole territory of Bosnia and Herzegovina is covered by this survey. Activities of commercial entrepreneurs who are engaged in transport and storage activities are not included in these data.

## Method of index calculation

Turnover indices in the transportation and storage activities are calculated on the basis of data on realized turnover in the services activities of transportation and storage (base year 2010), which is consistent with the Methodology for short-term business statistics of Eurostat and STS regulation (EC 1165/98, Annex D).

Indices of turnover in transportation and storage activities are presented as gross, seasonally and working-day non deflated indices.

## Definitions

Turnover comprises the totals invoiced by the observation unit during the reference period, and this corresponds to market sales of goods or services supplied to third parties. Turnover also includes all other charges (transport, packaging, etc.) passed on to the customer, even if these charges are listed separately in the invoice. Turnover excludes VAT and other similar deductible taxes directly linked to turnover as well as all duties and taxes on the goods or services invoiced by the unit. Reduction in prices, rebates and discounts as well as the value of returned packing must be deducted. Price reductions, rebates and bonuses conceded later to clients, for example at the end of the year, are not taken into account.

Income classified as other operating income, financial income and extraordinary income in company accounts is excluded from turnover.
