METODOLOŠKA OBJAŠNENJA

NOTES ON METHODOLOGY

U saopštenju su iskazani podaci prikupljeni kvartalnom izvještajnom metodom pomoću obrazaca Mjesečni izvještaj građevinarstva (K KPS GRAĐ-21).

In this release are shown data collected by Monthly report on construction (K KPS GRAĐ-21) on the quarterly basis.

Podaci o broju i površini završenih stanova, te podaci o broju nezavršenih stanova prikupljaju se od glavnih izvođača radova koji imaju direktan ugovor s investitorom (ili grade za vlastite potrebe, tržište i sl.).

The data on the number and surface of completed dwellings and the number of uncompleted dwellings are collected from the main contractors who have a direct contract with investors (or build for own purposes, sale or similar).

Pod brojem (završenih i nezavršenih) stanova podrazumijevaju se samo novi stanovi, dakle stanovi u potpuno novim zgradama koje su podignute na gradilištima na kojima prije nije bilo nikakve građevine ili je postojala građevina, ali je prethodno srušena tj. uklonjena.

The number of (completed and uncompleted) dwellings represents only newly built dwellings built on the building sites where there were not any construction before or which had previously been destructed and removed.

U iskazane nove stanove uključuju se i dograđeni ili nadograđeni stanovi na postojećim građevinama ukoliko se grade kao nove stambene jedinice.

Presented newly built dwellings include also extended or additional dwellings on existing buildings, if they are built as new housing units.

Stanovi u obnovi iskazuju se kao novi stanovi samo ako su ponovno izgrađeni od temelja, bilo da su prije toga potpuno srušeni, bilo da su ostali djelimično sačuvani dijelovi pročelja zgrada.

Reconstructed dwellings are presented as new ones only if they had to be completely rebuilt, whether they were completely destroyed or there were only structures or the front of buildings left.

Podaci o završenim stanovima odnose se na stanove završene u periodu od početka godine do kraja izvještajnog kvartala bez obzira na to kada su započeti. Za nezavršene stanove stanje se daje na kraju izvještajnog kvartala.

Completed dwellings are related to dwellings finished in period from beginning of the year until the end of the reporting quarter regardless of the time when construction works started. Number of uncompleted dwellings is given on the end reporting quarter.
